

Greater Giyani Municipality Mayor launches Mobile Vehicle Testing Station

The Mayor for Greater Giyani Municipality Cllr Thandi Zitha, on the 2nd June 2022, launched what is referred to as Mobile Vehicle Testing Station (MVTs) at R81 road opposite Giyani Information Centre.

This, during a joint operation comprising of local and provincial traffic police, SAPS led by Brigadier Serakwane, Home Affairs Immigration unit and other strategic stakeholders. According to the Mayor, the launch ushers in a period where space for un-roadworthy vehicles on "our roads will be squeezed".

Knowing what a notorious roads R81 and R529 have become with too many accidents and fatalities, Cllr Zitha urged law enforcement officers to put extra effort in ensuring that all un-roadworthy vehicles are removed from the roads to reduce unnecessary accidents.

"Neither should we tolerate any form of lawlessness on our roads".

"Let us use this new technology at our disposal to make our roads safer," she concluded.
