CHAPTER ONE: MAYOR'S FOREWORD AND EXECUTIVE SUMMARY

The Greater Giyani Municipality (GGM) hereby, in terms of Section 46 of Municipal System Act No. 56 of 2003 (MFMA), present to Council the draft 2020/21 Annual Report which outlines achievements and challenges for the year under review.

Vision

A Municipality where environmental sustainability, tourism and agriculture thrive for economic growth

Mission

A democratic and accountable municipality that ensures the provision of quality and sustainable services through sound environmental management practices, local economic development and community participation.

GGM is fully aware and committed to the fact that it needs to continuously search for mechanisms to identify its priorities, issues and problems in the quest for efficient and effective alternatives towards maximum and sustainable fulfilment of Council mandate as enshrined in the Constitution of the Republic of South Africa, Act 108 of 1996. The Municipality has engaged in a strategic planning session, as part of the Integrated Development Plan (IDP) review processes, and the current vision, mission and strategic objectives were reviewed and retained. This process of planning is guided by the following two (2) key national objectives:

- a) The need to set out the core principles, mechanisms and processes that give meaning to development, local governance and to empower the municipality to move progressively towards the social and economic upliftment of communities and the provision of basic services to all communities.
- b) The democratic imperative for local government to actively involve and engage communities.

This process, which in a way facilitates planning and delivery, should arrive at decisions on such issues as Municipal Budgets, Local Economic development and institutional transformation in a consultative, systematic and strategic manner. Noting that the IDP does not only inform municipal management, but also supposed to guide the activities of any agency from the other spheres of government, corporate service providers, NGO's and the private sector within the municipal area, the municipality embarked on a consultative process within very stringent timeframes to elicit the necessary input from various communities, to inform the compilation of this annual report. Emanating from this consultative engagement, the municipality was able to pick a basket of developmental issues which remain endowed to our communities ranging from roads, water, electricity, sanitation, housing, access to health facilities, sporting amenities, crime, and unemployment amongst others.

These issues also find expression in the National Development Plan (NDP), the diagnostic document which points out that "while we have made some progress in reducing poverty, poverty is still pervasive. Millions of people remain unemployed and many working households live below the poverty line".

Critical to the legislated parameters, is the Local Government Municipal Systems Act 32 of 2000, in particular, Chapter 5 which states that a municipality must undertake developmentally-oriented planning so as to ensure that it-

- a) Strives to achieve the objectives of local government set out in Section 152 of the Constitution;
- b) Give effect to its developmental duties as required by Section 152 of the Constitution.

For the municipality to monitor its performance for the realisation of projects and programmes outlined in the IDP, Chapter 6 of the Local Government Municipal Systems Act requires that all municipalities must develop a Performance Management System (PMS) which will monitor the implementation of the IDP. The municipality in line with this legislated imperative has developed an Annual Report which gives account of municipal performance in terms of its own set predetermined objectives which set targets that need to be achieved at the end of that Financial Year. The Annual Report also indicates challenges for targets that were not achieved and the reasons for such non-achievement.

These are some of the achievements for 2020/21 Financial Year:

- Electricity

The following villages have been electrified:

- Nkuri Zamani
- Jim-Ghalalume
- Mashavela
- Noblohoek
- Mapuve
- Shimange

- Paving / tarring of streets

The following streets have been paved:

- Makosha paving of Access Road
- Homu 14B to 14A Upgrading from Gravel to Tar
- Giyani Section E Upgrading from Gravel to Tar Phase 02
- Giyani Section F Paving of Streets
- Giyani Waste Disposal

These were just few development highlights that the municipality is proud of delivering to our communities for the year under review. There were many projects which were also under-taken by other sectors which also contributed to the upliftment of the lives of our communities.

In conclusion the municipality is calling all the stakeholders to assist the municipality in ensuring that they form part of the planning and development of the municipality by taking part in all the initiatives the municipality is coming up with, by paying for services and participation in the IDP process.

While taking over the baton it is of high importance to note that the audit was finalized on the 28 February 2022 with the new that started on the 22 November 2021

Chapter One: Overview by the Municipal Manager

Component B: Executive Summary

1.1 OVERVIEW BY THE MUNICIPAL MANAGER

Greater Giyani Municipality is an organization that derives its pride on environmental sustainability, tourism and agriculture for economic growth.

The 2020/21 Financial Year came with a lot of hard work from the municipal workforce and the collective commitments which resulted in significant achievement recorded in the period under reporting. The Municipality has been able to improve the lives of the Greater Giyani communities through infrastructure development such as electricity connections and paved roads. The provision of electricity will assist in reduction of crime and facilitate economic development to the affected communities. It is highly encouraging that our core business department, Basic Service Delivery and Infrastructure Development, was able to achieve 64% on the planned targets. Local Economic Development achieved 0% on the LED targets. Delayed appointment of service providers contributed to non- achievement of the missed targets and we have rectified the root causes thereof. Our bid specification, evaluation and adjudication committees sit regularly to ensure timeous appointment of service providers, regardless of the overwhelming number of bids we attract.

Significantly, the institutional capacity of Greater Giyani Municipality remains the central pillar of service delivery enabler, thus we managed to complete the third phase of the Municipal Administration building to accommodate all our departments in one roof for efficient coordination of administration. In the main, this development offers us practical opportunity to conveniently deliver services to the citizenry of Greater Giyani.

However, high vacancy rate is a challenge due to limited financial resources and high personnel turnover. Importantly though, the institution has filled only Director Community service position vacant in the 2020/21 financial year. We also developed policies that guided the municipality's day to day functions and the policies are reviewed at least once per year.

None payment of services by residents remains our biggest challenge, and we accordingly appeal to all the residents of Greater Giyani to pay for their municipal services and to participate in the IDP and Public Participation Programs.

In conclusion, the municipality has obtained an Unqualified audit outcome during 2019/20 financial year. In the 2020/21 financial year, the municipality obtained the Qualified audit opinion with improvements in asset management, revenue management, expenditure management and reduced the number of paragraphs raised by Auditor General. We acknowledge that there are still strategic risks which

are embedded on the institution which must be mitigated. The Municipality needs to further improve on its project implementation and management strategy so that project expenditure can increase to 100% in 201/22 financial year and can therefore realise its objectives.

ACKNOWLEDGEMENT

I would like to extend my appreciation to the Honorable Mayor, Executive Committee and Councilors for strategic direction and leadership demonstrated during the financial year. The guidance and vision of the Acting Chief Financial Officers, Heads of Departments and other staff are acknowledged with gratitude. A special word of appreciation is extended to all my colleagues for their loyalty and support.

A stylized, handwritten signature in black ink, consisting of several overlapping loops and strokes.

Building regulations	Technical Services	The regulation, through by-laws, of any temporary or permanent structure attached to, or to be attached to, the soil within the area of Jurisdiction of a municipality, which must at least provide for approval of building plans, building inspections.

1.2.2 Population

According to SATSSA of 2016, the total population is **256, 153 with** a total number of households of **70535**.The municipality have **31 wards** grouped into 5 clusters. In most wards, the population exceeds 5000 people. In the past few years, the population has shown a slight increase. In the 2007 survey, the population was counted at **247 565** but according to the 2011 census, it has declined by almost **3000** people. The decline may be attributed to migration to other urban centers, such as Polokwane, Gauteng and Tzaneen in which the migrants search for better working conditions. But in 2016 community population survey has shown a slight increase by 0.14%.

Population by Wards

Ward	Male	Female	Total

TOTAL	111094	148473	256300

1.2.3 Environmental Overview

The Greater Giyani municipality subscribe to the national environmental management act which means when we conduct our business as a municipality we are conscious of the fact that we need to adhere to the provision of the act. The vision of the municipality also makes specific reference to environmental sustainability as the core of our business.

(Section 152 of the constitution objects of local government) also prescribe to municipalities that they must ensure that communities lives in a safe and healthy environment. Our environment is characterized by different environmental factors e.g. climate, geomorphology, terrain and soil suitability.

There are some environmental challenges that the municipality is having which needs strong intervention from all stakeholders' e.g. illegal occupation of land (sensitive areas) deforestation, overstocking, veld fires and water pollution. GGM has appointed the attorney to deal with issues of the illegal occupations. This environmental challenge has serious impact in terms of sound environmental management practices that will ensure environmental sustainability as enshrined in our vision. GGM is currently implementing various projects that are in line with sustainable development and fight against phenomenon of global warming.

1.3 Service Delivery Overview

Great Giyani Municipality has the responsibility to provide services to the communities. For the year under review the municipality met the target on MIG projects within SDBIP. However the completion was at the planned targets not final completion since the projects are Multi- Year Projects. The municipality is working hard to ensure that extra High mast lights are provided to communities where there is high crime rate in order to fight crime. Gravel Roads were upgraded to tar and Culvert bridges were also refurbished and other new culvert bridges were constructed. The following are the list of projects and expenditure completed in the 2020/21 financial year:

project name	Expenditure
Makosha Access Road	R40 500 637.79

Homu 14B to 14A Upgrading from Gravel to Tar	R19 308 003.11
Giyani Section E Upgrading from Gravel to Tar Phase 02	R8 747 848.48
Giyani Section F Paving of Streets	R52 659 610.25
Giyani Waste Disposal	R27 836 427.19
Electrification of Nkuri Zamani	R3 692 948.01
Electrification of Jim-Ghalalume	R 6 108 164.47
Electrification of Mapuve	R 7 144 462.06
Electrification of Shimange	R 3 673 189.33
Electrification of Noblohoek	R 4 151 820.62
Electrification of Mashavela	R2 582 296.18

1.4 Financial Health Overview

Greater Giyani municipality has in the year under review enjoyed healthy financial status . This is evident by the positive bank balance that the municipality has maintained throughout the financial year. This is also supported by the fact that in the year 2020/21 the municipality was amongst the best in the province in terms of spending of municipal infrastructure grants even though we did not spend 100% but 95% was spent on MIG, but however in the year under review the Municipality managed to spend 100% on all the grants allocated. . The municipality has developed the revenue enhancement strategy that will improve the revenue generation in the municipality, the issue of revenue is one challenge that the municipality is currently facing. Special focus will be placed on arrears for business as a priority measures on credit control. The municipality managed to implement the cost containment measures as per the approved policy and this assisted the municipality to maintain it's positive bank balance during financial year.

1.5 Organizational Development Overview

The Municipality approved its Organizational Structure and the structure is aligned with the IDP and the powers and functions to be conducted by the municipality, however there is a high vacancy rate of 42 % and 58 % of the positions have been filled (359 positions were vacant and 256 positions were filled). Most of the vacancies were not funded. The municipality is in the process of reviewing its organizational structure to make sure that the structure is realistic to the financial resources of the municipality and that critical positions are funded. The organizational structure will be reviewed with the 2020/21 IDP.

1.6 Auditor General Report

Legislation mandates that upon closure of the financial year the municipality must prepare Annual Performance Report in terms of section 46 of the MSA and Annual Financial statements in terms of section 122 of the MFMA and submit to the Auditor General of South Africa for auditing. For the Financial Years 2019/20 the municipality obtained an unqualified Audit Opinion. For Financial year 2020/21 the Municipality prepared and submitted the Annual Financial Statement and Annual Performance Report to the Auditor General of South Africa and the Municipality obtain Qualified Audit Opinion.

CHAPTER 2: GOVERNANCE

Component A: Political and Administrative Governance

2.1 Political Governance (PUBLIC PARTICIPATION)

Greater Giyani Council constitutes of 62 Councillors of which 40 are males and 22 are females, 31 Ward councillors and 31 Propotional Representatives. It is comprised of 7 full time councilors that are the Mayor, the Chief whip, the Speaker, MPAC Chairperson, Head of Infrastructure Development, Head of Budget and Treasury and Head of Corporate and Shared Services. Ward councilors' represents communities in wards they are voted in ensuring that service delivery is brought to the people. Propotional Representative play political roles in wards they are deployed together with respective ward councillors. Ward councillors and Propotional Representative Councilors both form council committees. They all attend quarterly arranged council meetings and monthly portfolio committee meetings and special meetings if arranged. The Municipality had 308 ward committee members

Political decision taking

Political decisions are taken from the submissions of portfolio committee based on administration report generated by management led by the accounting officer. The municipality consist of six directorates namely; Office of the Municipal Manager; Community Services; Technical Services; Corporate Services; Budget and Treasury and Planning and Economic Development. Each of the six directorates is linked to portfolio committees which are chaired by councillors. Community Services Directorate is linked with Health & Social Development Portfolio Committee, Sports Recreation Arts & Culture and part of Public Transport and Roads.

Technical Services Directorate is linked with Water, Sanitation and Energy Portfolio Committee, Infrastructure Development Portfolio Committee and Public Transport and Roads. Corporate Services Directorate is linked with Portfolio Committee of Corporate and Shared Services. Budget and Treasury Directorate is linked with Finance Portfolio Committee. Planning and Economic Development directorate is linked with Portfolio Committee of Planning and Economic Development. All reports of portfolio committees originate from administration and after the portfolio committee has interrogated the report, such reports are recommended to Executive committee which with delegated powers the Executive Committee took decisions and other matters are referred to council as the council is the highest decision making body. The council appointed the Audit Committee which assist, advice and alerting the municipality on issues of compliance. The council established the MPAC committee which plays an oversight role on the functions of council as well as compliance to all applicable legislations. The MPAC is comprised of 7 councillors namely: Cllr Mabasa Rhlani Oral (Chairperson), Cllr Mhlongo Mashau Calvin, Cllr Khandlela Nomsa Rachel, Cllr Maluleke TinyikoRose, Cllr Shivambu Hasani Richard, Cllr Mashimbye DC, Cllr Mazibuko Patrick and Cllr Gaveni Bridget.

POLITICAL MANAGEMENT TEAM

Cllr Shibambu B A: Mayor

Powers and functions of the Mayor

- Promote the image of the municipality

COMPONENT B: INTERGOVERNMENTAL RELATIONS

INTRODUCTION TO CO-OPERATIVE GOVERNANCE AND INTERGOVERNMENTAL RELATIONS

COMPONENT B: INTERGOVERNMENTAL RELATIONS

For the period under review the municipality participated in various Co- Operative Governance and Intergovernmental structures at all levels from the local sphere, district sphere, provincial and national sphere. Participation in such forums and IGR structures assisted service delivery in the sense that integration and alignment of various role players is realized to avoid the silo mentality existing in the public sector. Greater Giyani Municipality has benefitted in the IGR structure in the sense of best practice. While remarkable progress has been realized in IGR structures challenges still existed in the 2020/21 year with regard to the provision of reliable and accurate information from other public sector players and this affected the municipality 's planning especially the accuracy of the information in the IDP. Provision of progress in the implementation of sector departments within municipal boundaries is also still a challenge.

2.3 Intergovernmental Relations

NATIONAL INTERGOVERNMENTAL STRUCTURES

The municipality participates in national intergovernmental structures such as the following:

- National municipal manager's forum
 - South African Local Government Association sessions including working groups
 - Parliamentary Projects oversight visit (1 visit)
-

PROVINCIAL INTERGOVERNMENTAL STRUCTURES

The municipality participates in the following provincial intergovernmental structures:

- Premier-mayors' forum (1x Meeting)
- monitoring and evaluation forum (4 x meetings)
- provincial planning forum (3 x meetings)
- provincial municipal manager's forum

DISTRICT INTERGOVERNMENTAL STRUCTURES

The municipality participated in the following District IGR structures during the period under review:

- District and Provincial Speakers Forum (2 x meeting)
- District and Provincial Mayors' Forum (2x meeting)
- District and Provincial Chief whips Forum (2x meeting)
- District and Provincial Municipal Manager's Forum
- District and Provincial CFOs Forum
- District and Provincial Planning Forum (3x meeting)
- District and Provincial Monitoring and Evaluation Forum (x4 meeting)

The existence of the above IGR structures has assisted in the sharing of challenges, best practices and resource mobilization. Alignment of programs and standardization of activities were also achieved from the district IGR structures.

COMPONENT C: PUBLIC ACCOUNTABILITY AND PARTICIPATION

OVERVIEW OF PUBLIC ACCOUNTABILITY AND PARTICIPATION

The municipality also used its local IGR structures such as sector forums to ensure sector specific programs are aligned with those of other role players in the sectors. All forums were functional and holding their meetings.

COMPONENT C: PUBLIC ACCOUNTABILITY AND PARTICIPATION

2.4 PUBLIC MEETINGS

COMMUNICATION, PARTICIPATION AND FORUMS

The Municipality established six clusters for public participation. Council meetings are held in public venues that are accessible to members of the public. Other forms of communication and public participation during the 2020\21 financial years include the usage of ward public meetings for the 31 wards wherein ward councilors provide feedback and progress report to ward members.

Apart from ward public meetings, the mayor is having Quarterly Mayoral Imbizos where issues raised by communities were captured and report compiled. Those that were related to the municipality were attended to and those related to sector departments were referred to relevant sector departments.

The municipal website, social media(whatsapp & facebook) as well as media houses are also useful tools which the municipality employed to communicate with its stakeholders to cover the cyberspace community.

The Municipal Newsletter RITO is published quarterly to communicate municipal programs.

ISSUES RAISED DURING THE MAYORAL IMBIZOS Maswanganyi s

VENUE	DATE	EVENT DESCRIPTION	ISSUES RAISED	PROGRESS
1. Ximawusa	28 July 2020	Mayoral imbizo	Shortage of water Grading of internal streets Support of Arts and culture groups Sports recreation centres	Our technical services division took the matter up with the district. Project is currently underway but not without challenges which we are dealing with. Our technical services attended to the streets on a cluster to cluster basis. GGM Arts and Culture unit attended to the matter To be considered during IDP Public Participation
2. Giyani Section F	02 November 2020	Public Participation	Shortage of water, streets maintenance unemployment, high mast lights not enough.	Our technical services division took the matter up with the district. Technical services performed maintenance duties on regular basis Its national challenge no instant answers to it except to encourage them to apply when they see jobs advert. We acknowledge this fact but we can only provide one at a time due to budgetary constraints
3. Giyani Community Radio Station	24 May 2021	Draft IDP and Budget	Water, Roads, Clinics, schools, culvert bridges, employment, Electricity @ Extensions,	Culvert bridges and Electricity Extensions attended by GGM where budget was provided for. Roads, water, Clinics and school were referred to relevant departments.

WARD COMMITTEE	FORUM

WARD COMMITTEES

The municipality has a fully functional ward committee system. All the 31 wards have functioning ward committees with a total of 308 members (Due to Two (02) outstanding Ward Committee Members from Ward 23 who were never elected to make the total of 310, community members disrupted the Ward Committee election process) participants translating into 10 ward committee members for the 31 wards.

2.5 IDP PARTICIPATION AND ALIGNMENT

The IDP is reviewed annually and in-house. The IDP is reviewed in line with required standard and template and it is aligned to the budget. The IDP Process plan is developed and approved by council as the road map for the review of the IDP/Budget. The IDP Steering committee is responsible for the review of the IDP and Budget. The draft IDP/Budget is tabled before the council for public participation process to unfold to wards and the municipality established six clusters for the purpose of the community accessibility and inputs. The IDP representative’s forum where all the stake holders are represented is also conducted to interrogate the IDP document.

The other stakeholders that are consulted are the Traditional Authorities, NGO’s, Businesses, Traditional Healers and Pastors’ Fraternity. Inputs to the IDP are also submitted physically to the office of the accounting officer.

All the inputs and comments are consolidated and the report is developed based on the inputs. The process of prioritization takes place taking into account the available resources and capacity of the municipality.

IDP Participation and Alignment Criteria*	Yes/No
Does the municipality have impact, outcome, input, output indicators?	Yes

Does the IDP have priorities, objectives, KPIs, development strategies?	Yes
Does the IDP have multi-year targets?	Yes
Are the above aligned and can they calculate into a score?	Yes
Does the budget align directly to the KPIs in the strategic plan?	Yes
Do the IDP KPIs align to the Section 54/56 Managers?	Yes
Do the IDP KPIs lead to functional area KPIs as per the SDBIP?	Yes
Do the IDP KPIs align with the provincial KPIs on the 12 Outcomes?	Yes
Were the indicators communicated to the public?	Yes
Were the four quarter aligned reports submitted within stipulated time frames?	Yes

COMPONENT D: CORPORATE GOVERNANCE

COMPONENT D: OVERVIEW OF CORPORATE GOVERNANCE

For the 2020\21 financial year Greater Giyani Municipality took leaf from the King IV report on good governance by including in its operations the functionality of risk function as well as the development and implementation of corruption and anti-fraud strategies. Risk register was developed and its focus was on Strategic Risks, Operational Risks and Human Resources risks.

Through IGR the municipality used the Premier and Presidential hotlines to track areas of non-compliance to its corporate governance matters.

2.6 RISK MANAGEMENT

The Municipality regards risk management as one of the pillars required for the sustainability and corporate management. In compliance with the MFMA which S62 (i) (c) requires a municipality to have and maintain an effective, efficient and transparent system of risk management. For financial year 2020/21 the municipality had a dedicated risk unit to deal with risk matters. Risk assessment sessions were conducted with the assistance of the provincial Treasury and COGHSTA to help the municipal management with the identification and profiling of risks within the municipality.

Risk Management committee meetings are held on a quarterly basis

Risk	Action Plan	Progress
<p>Slow implementation of Project</p>	<p>Develop a completion plan on all stalled projects</p> <p>(Appointments of Quantity surveyors, Assessing the cost estimates by quantity surveyors, Allocation of budget from own funding to complete the projects, Appointment of contractors)</p> <p>Completion of Section E sports centre</p> <p>Progress on Homu 14B to 14A upgrading from gravel to tar</p> <p>Giyani waste disposal site development</p>	<p>*Progress on Giyani Section E Sports Centre: The project under litigation.</p> <p>*Progress on Homu 14B to 14A upgrading from gravel to tar: The project has reached practical completion on the 15th of December 2020.</p> <p>*Progress on Giyani waste disposal site development: Road intersection is in progress, cell lining, backfilling and lining of leachate is in progress. 2.7 Anti-Corruption and Anti-Fraud AND ANTI-CORRUPTION STRATEGY

The municipality has a Fraud and corruption policy as well as Risk Management Policy in place. Risk Management Unit has been established and is has two personnel, Risk Manager and Senior Risk Officer.

Fraud and Corruption awareness campaigns are conducted

2.8 SUPPLY CHAIN MANAGEMENT

OVERVIEW SUPPLY CHAIN MANAGEMENT

During the 2020\21 financial year the Supply Chain Management policy was tabled to council for revision alongside other budget related policies. The revision took into account the BBBEEE codes and changing supply chain regime

SCM has two policies in place.

They have been reviewed together with other budget related policies.

1. Supply Chain management Policy
2. Inventory management policy

Supply Chain Management Policy

The following list entails the deficiencies or limitations regarding the current policy:

1. Definitions

1. Added definitions for the following words which are used frequently in the SCM Policy namely:
 - Accounting Officer
 - CFO
 - Delegation
 - Emergency
 - Financial Interest
 - Single Provider
 - CSD
2. Changed year 2011 to 2017 on the Preferential Procurement Regulations as the latest regulations were promulgated now in year 2017.

3. "Long term contract" means a contract with a duration period exceeding one year changed to exceeding 3 years.
4. ""The Act" means the Preferential Procurement Policy Framework Act, 2000 (Act No. 5 of 2000) has been changed to ""Act" or "MFMA" means the Local Government: Municipal Finance Management Act, 2003 (Act No. 56 of 2003);
5. Added the following acts/regulations under 'Other applicable regulations namely.
 - (a) the Local Government: Municipal Systems Act, 2000 (Act No 32 of 2000);
 - (b) the Local Government: Municipal Structures Act, 1998 (Act No. 117 of 1998
 - (c)

2. Supply Chain Management Policy

1. Paragraph 2(7) (a) states that the Policy states that the municipality is exempt from requesting three formal written quotations when procuring repairs and maintenance of Property, Plant and Equipment. Not all instances of the repairs and maintenance of Property, Plant and Equipment will be an emergency or the municipality cant source three quotations.
2. Added the following on paragraph 2(6) on instances of procurement for goods and services which are exempt from the SCM policy
 - (a) Periodic or quarterly security assessments of political office bearers and key officials (as per paragraph 13(6) of the Municipal Cost Containment Regulations 2019)

3. AMENDMENT AND ADOPTION OF THE SUPPLY CHAIN MANAGEMENT POLICY

1. Changed the following words from
 - (b) Reviewed the policy as and when required but within a cycle of 5 years to 'Review at least annually the implementation of this policy.

4. Sub delegations

1. Paragraph 5(4) (b) (i) refers to paragraph 5(2) (c) (iii) of the policy and the policy does not have such paragraph. It should be amended to the correct paragraph. (Paragraph 5(2) (c)).
2. On paragraph 4.2 and paragraph 5.1 the words Sections 79 and 106 of the Act have been changed to Section 79 of the Act because Sec 106 relates to Municipal Entities of which Greater Giyani Local Municipality does not have hence the Section is not applicable.

5. Range of procurement process

1. Paragraph 12(4) was incomplete and below were the additions.

2. The following wording has been changed from

“The Accounting Officer may, after consulting with the municipal council and Heads of Departments, in writing change the different threshold values”
have been changed to

“The accounting officer may, in writing –

- a) Lower, but not increase, the different threshold values specified in sub-clause (1); or
- b) direct that – i) written or verbal quotations be obtained for any specific procurement of a transaction value lower than R2 000 (VAT included);
ii) formal written price quotations be obtained for any specific procurement of a transaction value lower than R30 000 (VAT included); or
iii) a competitive bidding process be followed for any specific procurement of a transaction value lower than R200 000 (VAT included).

2. The following paragraph has been added on panel appointments

-The Municipality reserves the rights to appoint a panel of Service Providers or Contractors for period not more than 36 months and allocation of work must be done on rotational basis taking into account the final ranking and the satisfactory performance of the service provider.

6. GENERAL PRECONDITIONS FOR CONSIDERATION OF WRITTEN QUOTATIONS OR BIDS

1. On Paragraph 13(1), the following items to be furnished by the prospective bidders when submitted quotations or bids:
 - (i) Tax Pin
 - (ii) CSD Registration Number

2. On Paragraph 13(1)b, the following items to be furnished by the prospective bidders when submitted quotations or bids:

- whether any Municipal staff member is a close family member of an owner, his/her partner serves on the board of directors, or are members or trustees, of the tendering enterprise.

The above changes have also been effected under item 6 of the General Preconditions to be aligned with legislation.

7. CENTRAL SUPPLIER DATABASE

1. On Paragraph 14(1) d, the following words have been added 'which are currently not validated by the CSD'.

8. PETTY CASH

1. The following sentence has been added on paragraph 15

Petty cash purchases with threshold value from an amount of R1.00 up to an amount of R2 000 (VAT included) to be authorised by the Chief Financial Officer or his delegate.

9. VERBAL QUOTATIONS PROHIBITED

1. The following has been documented under paragraph 16:

The conditions for the procurement of goods or services through written quotations for amounts under the threshold for formal quotations as stated in clause 12(1)(c) & (d) are as follows:

a) quotations for transactions up to a value of R 2 000 (VAT Included) must be obtained from at least two different providers preferably from, but not limited to, providers whose names appear on the list of accredited prospective providers of the

Municipality provided that if quotations are obtained from providers who are not listed, such providers must meet the listing criteria set out in clause 14(1) (b), c) and (d) of this Policy;

b) providers must be requested to submit such quotations in writing;

c) if it is not possible to obtain at least two quotations, the reasons must be recorded and reported quarterly to the Supply Chain Manager

d) if a quotation was submitted verbally, the order may be placed only against written confirmation by the selected provider;

e) any other conditions determined by the Accounting Officer.

2) No orders may be placed based on verbal price quotations.

3) No quotation, written or verbal, may be made available by an official to a prospective bidder.

10.THE PROCEDURE FOR THE PROCUREMENT OF GOODS OR SERVICES THROUGH INFORMAL AND FORMAL WRITTEN QUOTATIONS,

1. Paragraph 18 (i) added and deals with the composition of the quotation committee as follows

“procurement requirements exceeding a value of R 30 000 (VAT Inclusive) must be submitted to the Quotations Evaluation Committee which comprises of Supply Chain Manager or his delegate, End User Representative and Secretary. The Quotations Evaluation Committee must make recommendation to the Chief Financial Officer or delegated official for approval”.

11.PROCESS FOR COMPETITIVE BIDDING

1. Paragraph 20 (i) added and deals with the need for Cost Containment Measures before any procurement is done as follows

a. “ Cost containment determination (Needs analysis reports which necessitated the tender to be advertised).

b. The CFO to formally confirm in writing the availability of budget for adverts above R10m

12. Bid documentation for competitive bids

1. Paragraph 21(5) does not state that the winning bidder’s account for municipal rates and taxes and municipal service charges must not be in arrears for more than 3 months at the time of awarding.

2. Column headings for the 80/20 points system have been corrected from (<R30->R50m) to (R30K-<R50m)

3. Column headings for the 90/10 points system have been corrected from (<R50m) to (>R50m)

4. The following paragraphs have been added to paragraph 21

10. Pre-qualification criteria for preferential procurement

If the municipality decides to apply pre-qualifying criteria to advance certain designated groups, the municipality must a. advertise the tender with a specific tendering condition that only one or more of the following tenderers may respond
b. specify tenderer having a stipulated minimum B-BBEE status level of contributor;

11. Subcontracting as condition of tender

If feasible to subcontract for a contract above R30 million, the municipality must apply subcontracting to advance designated groups. (2) If the municipality applies subcontracting as contemplated in sub-regulation the municipality must advertise the tender with a specific tendering condition that the successful tenderer must subcontract a minimum of 30% of the value of the contract to(a) an EME or QSE;

1.

13. PUBLIC INVITATION FOR COMPETITIVE BIDS

1. Added the following on paragraph 22(1) on public invitation of bids

- Whether the briefing session/site inspection session is compulsory or not
- Municipality reserves the right to accept or reject any bid or part thereof and is not obliged to accept the lowest bid.
- No bid will be accepted from the person in the service of the state.
- Municipality reserves the right to accept a bid in part.
- The tender validity period
- Council reserve the right to appoint more than one bidders;

2. On paragraph 22.1.1, the words newspapers commonly circulating locally have been removed as it is not applicable anymore. The municipality advertises on the website and on e-portal as well as the CIDB.

3. Advertising on the CIDB website has been included as well.

14. NEGOTIATIONS WITH PREFERRED BIDDERS AND COMMUNICATION WITH PROSPECTIVE PROVIDERS AND BIDDERS

1. Paragraph 24(1) (e) (ii) Should be rephrased as it is still referring to the tenderer who scored the highest points. It should refer to a bidder that scored second highest points.
2. Paragraph 24(4) (C) refers to paragraph 25(3) (b) of the policy and the policy does not have that paragraph. It should be amended to the correct paragraph. (Paragraph 24(4)(b))
4. Paragraph 24(4) (d) refers to paragraph 25(3) (C) of the policy and the policy does not have that paragraph. It should be amended to the correct paragraph. (Paragraph 24(4) (C).
5. The last paragraph 24 (e) iv which reads that " If a market related price is not agreed as envisaged in paragraph (e) (iii), the accounting officer must re-advertise the tender", the words re-advertise must be replaced by the words 'CANCEL'.
6. The following has been added on paragraph 24 (1) "does not lead to a lower price in respect of sale of land / goods".

15.COMMITTEE SYSTEM FOR COMPETITIVE BIDS

1. Paragraph 26(4)(A) should be amended to paragraph 27,28 and 29 of the SCM policy, and

16. BID SPECIFICATION COMMITTEE

1. The composition of the bid specification committee added to include

Composition of Bid Specification Committee ;

A Bid Specification Committee must be composed of the following

- a) Chairperson
- b) At least 2 members one of which is a Manager or delegated official from the user department requesting goods or services.
- c) One official from SCM Unit providing also secretarial duties

17. Bid Evaluation Committee

1. The policy did not indicate the minimum number of members that the committee must have.

The policy was added as follows: The evaluation committee shall comprise not less than three people. The chairperson shall be an employee of Greater Giyani Municipality with requisite skills. Other members shall include a supply chain management practitioner and where relevant, include an official from the department requiring the goods and services.

2. Paragraph 28(a) (ii) makes reference to paragraph 28(2) (F) which is not in the policy. The correct paragraph should be quoted (Paragraph 21(9)(h))
3. A paragraph should be added on the policy to provide more details on administrative requirements which will lead to disqualification such as, initialling of all pages by an authorised signatory, signing of all places where the signature is required, proof of purchase of bid document.

18. Locality

1. The following wording has been removed from paragraph 34 as it refers to locality which is now outlawed:
 - (a) Firstly, suppliers and businesses within the municipality/municipal district;
 - (b) Secondly, suppliers and businesses within the relevant province; and
 - (c) Thirdly, suppliers and businesses within the Republic of South Africa.
- (2) These principles are to be embodied in the points allocated in terms of the Preferential Procurement Policy of the municipality.

19. APPOINTMENT OF PANEL OF CONSULTANTS

1. The following has been added on paragraph 35 (9) on remuneration of consultants

The Accounting Officer must follow a fair and reasonable remuneration framework for consultants taking into account the rates:

- (a) Determined in the Guideline on fees for audits undertaken on behalf of the Auditor General of South Africa, issued by the South African Institute of Chartered Accountants
- (b) Set out in the 'Guide for Hourly fees for Consultants, issued by the Department of Public Service and Administration
- (c) Where the consultant belongs to a professional body, the rate of remuneration as stipulated by that body; and
- (d) In any other case, the rate stipulated as per competitive process.

2. The following has been added on the minimum clauses of service level agreements with consultants

The service level agreement between the municipality and the consultant must include as a minimum the following clauses namely

- a) How the consultant will transfer skills to the officials of the municipality
- b) objective for transfer of skills, including the nature, scope and goals of the training programme.
- c) The list of employees to be trained
- d) Contents of the skills to be transferred
- e) Fee retention or penalty clause for poor performance

20. Procurement of goods and services under contracts secured by other organs of state

1. Consideration is given to regulation 32 once there has been update from National Treasury from time to time in line with Circulars.

21. Deviation from, and ratification of minor breaches of, procurement processes

1. Paragraph 36(2) refers to paragraph 37(1) (a) and (b) of the policy and the policy does not have such paragraph. The correct paragraph was corrected to be quoted as follows.. (Paragraph 36(1)(a) and (b))
2. Paragraph 36(3) refers to paragraph 37(2) of the policy and it does not relate to the matter on paragraph 36(3). The correct paragraph should be quoted. (Paragraph 36(2)).
3. On paragraph 36 (a)i, details of emergency examples have been added as follows

Circumstances that warrant emergency dispensation, includes but are not limited to

- a) the possibility of human injury or death;
- b) the prevalence of human suffering or deprivation of rights;
- c) the possibility of damage to property, or suffering and death of livestock and animals;
- d) the interruption of essential services, including transportation and communication facilities or support services critical to the effective functioning of the municipality as a whole;
- e) the possibility of serious damage occurring to the natural environment;
- f) the possibility that failure to take necessary action may result in the municipality not being able to render an essential community service;
- g) the possibility that the security of the state could be compromised.

b) The prevailing situation, or imminent danger, should be of such a scale and nature that it could not readily be alleviated by interim measures, in order to allow time for the formal tender process.

22.UNSOLICITED BIDS

1. Paragraph 37(3)refers to paragraph 38(2) for unsolicited bid which was incorrect, The correct paragraph should be 37(2)
2. Paragraph 37(4)refers to paragraph 38(3) for unsolicited bid which is incorrect, The correct paragraph should be 37(3)
3. The following has been added on paragraph 37

(1) The adjudication committee must consider the unsolicited bid and may award the bid or make a recommendation to the Accounting Officer depending on its delegations

- (2) A meeting of the adjudication committee to consider an unsolicited bid must be open to the public.
- (3) When considering the matter, the adjudication committee must take into account –
 - a) any comments submitted by the public; and
 - b) any written comments and recommendations of the National Treasury or the relevant provincial treasury.
- (4) If any recommendations of the National Treasury or provincial treasury are rejected or not followed, the accounting officer must submit to the Auditor General, the relevant provincial treasury and the National Treasury the reasons for rejecting or not following those recommendations.
- (5) Closed bids shall only be accepted after the municipality failed to attract potential service providers through normal competitive bidding processes

23.PAYMENT OF SUB-CONTRACTORS OR JOINT VENTURE PARTNERS

1. The following has been added on paragraph 55
2. Payment of sub-contractors or joint venture partners

The Chief Financial Officer or an official designated by the Chief Financial Officer may consent to the direct payment of sub-contractors or joint venture partners by way of -

- (a) an approved cession; or
- (b) an agreement for direct payment.

3. Cessionary payment

The municipality shall accept cessionary payment under the following conditions:

- a) Signed agreement between the parties involved.
- b) Provided that the cedee submit original and valid tax clearance certificate and pin.
- c) The cedee is not blacklisted in the National Treasury database
- d) The cedee is listed on the Central Supplier Database
- e) The cedee signs the MDB 4' Independence Declaration'

Cessionary payments shall be approved by delegated officials in terms of approved delegations.

3. Cession can only entered into if it is for purchase of the material or stock by the appointed service provider or financing cession to the appointment service provider.

4. No official other than the Accounting Officer shall enter into cession on behalf of the municipality

24. COMBATING OF ABUSE OF SUPPLY CHAIN MANAGEMENT SYSTEM

1. Paragraph 38(2) refers to paragraph 39(1) (b) (ii), (e), or F of the policy and the policy does not have that paragraph. The correct paragraph should be quoted. (Paragraph 38(1)(b)(ii),(e)or F

25.DISPOSAL MANAGEMENT

1. Paragraph 40(5) (b) (ii) refers to paragraph (41) (4) (b) (ii) for property development which is in incorrect section. The correct paragraph to be quoted is paragraph 40(5) (b) (i).

26..Risk Management

1. The municipality should have a fraud helpline or suggestion box to report fraud. This has been added as point no 41.3.9

27.PROHIBITION ON AWARDS TO PERSONS WHOSE TAX MATTERS ARE NOT IN ORDER

1. The policy should also include that the tax status of a bidder should be verified at the time of appointment.

28. ETHICAL STANDARDS

1. Paragraph 46(2) (d) refers to paragraph 47(2) (C) regarding rewards, gift, favour, hospitality or other benefits which is an incorrect paragraph. The correct paragraph should be quoted. (Paragraph 46(2) (c).

2. Paragraph 46(3) refers to paragraph 47(2) (d) and (e) of the policy. The paragraph quoted is incorrect. The correct paragraph to be quoted is paragraph 46(2)(d) and (e)

28.INDUCEMENTS, REWARDS, GIFTS AND FAVOURS TO MUNICIPALITIES, OFFICIALS AND OTHER ROLE PLAYERS

1. Paragraph 47(2) and (3) refers to paragraph 48(1) which is an incorrect paragraph. The correct paragraph should be quoted. (Paragraph 47(1)).

No new By –Laws were introduced during 2020/21 Financial Year however animal control by-laws is under development

MUNICIPAL WEBSITE CONTENT AND ACCESS

Most of prescribed key website content material were placed on the municipal website and the publishing dates are indicated on the table above such as IDP , Budget , Annual Report , Performance Agreements, Budget related policies, Adverts for tenders and Adverts for Vacancies as indicated

2.11 PUBLIC SATISFACTION ON MUNICIPAL SERVICES

PUBLIC SATISFACTION LEVELS

Public Participation surveys were conducted during the period under review. Forms were distributed at various municipal strategic points such as Giyani Library, testing grounds and Civic centre. We received relatively balanced responses from the public. The municipality further relied on public participation as well as the usage of the Premier and Presidential Hotlines to gauge the level of satisfaction and \ dissatisfaction with municipal services.

Key general areas of satisfaction/ dissatisfaction include:

- State of roads conditions (Tarred Roads)
- water
- health and education services (Clinics, Hospitals and Schools)
- unemployment
- RDP houses
- Revenue services
- Long ques at the testing ground

CHAPTER 3: SERVICE DELIVERY PERFORMANCE (PERFORMANCE REPORT PART I)

COMPONENT A: BASIC SERVICES DELIVERY

This component includes: water; waste water (sanitation); electricity; waste management; and housing services; and a summary of free basic services.

3.1 WATER PROVISION

3.1.1 INTRODUCTION TO WATER PROVISION

The Water Services Act 108 of 1997 provides that all residents have a right to access of Water. Mopani District Municipality has been issued with a Licence to become the Water Services Authority for all its Local municipalities, in terms of the National Water Act 36 of 1998. It has appointed such Local Municipalities to become its Water Services Provider whereby a Budget for Operations and Maintenance is allocated to ensure that the Water Infrastructure is well functional. MDM is responsible for distributing water to the main pipeline. New Water Infrastructure projects remain the responsibility of the District Municipality. The report below provides information in terms of Households with water services and those that still remain with the backlog the municipality.

3.4.1 CHALLENGES

There is a huge backlog of the refuse removal service as the service is yet to be extended to rural communities. Lack of proper waste management infrastructure is also a challenge as waste disposal is not meeting the minimum requirements for safe disposal of waste. The municipality also does not have sufficient funds to can initiate recycling initiate. There is also ageing staff and shortage of employees as a result the municipality relies on contract workers to render the waste management service.

3.4.2 INTERVENTIONS

Site acquired for the development of new landfill site. Buyback Centre constructed to support recycling initiatives. Budget set aside under the EPWP Programme to appoint personnel on a contract basis to work on waste the report include only sport centers build by the municipality.

3.8 TRANSPORT (INCLUDING VEHICLE LICENSING & PUBLIC BUS OPERATION)

INTRODUCTION TO TRANSPORT

The municipality has a fully established licensing unit with the vehicle testing station, driver’s license testing center and registering authority. However these functions belong the Department of Transport , therefore the municipality operates under a Service Level Agreement. The municipality also has a law enforcement and traffic services unit responsible for public transport management and community safety. The key activities uner this function are vehicle roadworthy complicance, vehicle speed control, scholar patrols, traffic escorts and pound services amongst others.

Majority of the Greater Giyani Municipality residents rely on public transport, this evidenced by the number of buses and taxis on our roads. The municipality usually experinces road conjestion during peak hours and in festive seasons. This is due to the lack of bus rank facilities, heavily conjested Giyani taxi rank and public road infrastructure such as offloading and loading zones. To resolve this, the municipality need secure land from Public Works or traditional leaders to develop taxi rank holding facility and bus rank facility. The matter has been submitted to Planning and LED department to facilitate the process of land negotiation.

**PUBLIC TRANSPORT
STATUS OF TAXI RANK FACILITIES**

LOCATION	STATUS	DESTINATIONS
Old Spar	Operational	Bushbuckridge, Polokwane, Tzaneen and Phalaborwa,Witbank
Shoprite	Operational	Malamulele
New Boxer Supermarket	Operational	Mooketsi, Vuhehli, Gawula
OBC(Main Taxi Rank)	Operational	Phalaborwa,Acornhoek,Tzaneen,Polokwane,Pretoria,Rusturnburg,Johannesburg

PUBLIC TRANSPORT CHALLENGES

The major challenge experienced by the municipality is the lack of space for loading of passengers. The municipality currently does not have integrated transport plan which would then be used for management of Public Transport within area of municipal’s jurisdiction.

3.9 WASTE WATER (STOMWATER DRAINAGE)

ACTIONS THAT HAVE BEEN TAKEN

- 133 storm water inlet replaced
- 459 stormwater infrastructure inlet cleaned
- 3.7 km of pavement milling constructed
- 7477 m² pavement milling constructed at taxi rank
- 6778 m² of potholes patched

PLANS IN PLACE TO DEVELOP THE TOWN

The Municipality will prioritize the development of Stormwater Master Plan

COMPONENT C: PLANNING AND DEVELOPMENT

3.10 PLANNING

COMMENT ON THE PERFORMANCE OF CEMETORIES & CREMATORIUMS OVERALL:

The municipality is experiencing a challenge of space for the development of future cemetery site since most of the available land is under the control of the traditional leadership. Cemetery By-laws are currently under review to include clauses which will help the municipality to save space. There are no security personnel deployed and vandalism is taking place. There is no provision of water in the cemetery the jojo tank has been damaged due to vandalism.

3.14 CHILD CARE; AGED CARE; SOCIAL PROGRAMMES

INTRODUCTION TO CHILD CARE; AGED CARE AND SOCIAL PROGRAMMES

The municipality has coordinators who focus on social programs such as HIV and AIDS, Women and Children, Youth, Old age, Gender and Disability. There are also several forums such as Aids council and technical committee, Men's forum, Disability's forum and gender forum which champion the interest of these social sectors. At the core of it is that the oversight monitoring is done through the Health and Social Development Portfolio Committee. The municipality works closely with provincial and district departments that deal with social issues such as the Department of Social Development, Department of Health, South African Police Services and Chapter Nine institutions such as Human Rights and Gender Commissions as well as non-governmental organisations.

COMPONENT E: ENVIROMENTAL PROTECTION

The municipality is working together with DEA and LEDET to raise awareness on the need for Environmental Protection.

3.15 POLLUTION CONTROL

The municipality has a functional waste management services, providing refuse removal services to the Giyani township households once per week and daily in the CBD. Due to capacity challenges, the municipality is yet to extend waste management services to rural villages. The municipality is currently developing a landfill site and rehabilitating the current waste disposal site in compliance to the National Environmental Management: Waste Act and the GN No.636 National Norms and Standards for Disposal of Waste to landfill.

3.16 BIO-DIVERSITY; LANDSCAPE; (INCL.OPEN SPACES)

GGM works jointly with DEA and LEDET to ensure biodiversity conversation construction in line with the climate change response strategy of the Province. There are also municipal community parks that are well maintained, though there is a challenge of vandalism in the parks.

COMPONENT F: HEALTH

The clinics and ambulance services are rendered by the provincial department of Health and Social Development.

COMPONENT G: SECURITY AND SAFETY POLICE, FIRE AND OTHER (DISASTER MANAGEMENT, ANIMAL LICENCING AND CONTROL, CONTROL OF PUBLIC NUISANCES AND OTHER)

INTRODUCTION TO DISASTER MANAGEMENT, ANIMAL LICENCING AND CONTROL, CONTROL OF PUBLIC NUISANCES, ETC

The Police and Fire services are rendered by the provincial department and National Department. And fire rendered by the District Municipality. **The municipality has animal pound station to be used for impoundment of animals. The development of by-laws for keeping of animals to deal with licensing and control of animals is in progress.**

COMPONENT H: SPORT AND RECREATION

INTRODUCTION TO SPORT AND RECREATION

The municipality currently has 10 sports centers and 3 developed parks to be used for sporting and recreational purposes. The Municipality promotes sporting in local communities through the sport development programmed by providing identified beneficiaries with sports equipment. e.g. kits, balls and funds. The municipality also runs an annual mayor's cup to assess the progress with regard to sports development with the assistance of the local sports confederation .The report include only sport centers build by the municipality.

3.18.1 CHALLENGES

There is underutilization of most sport centers that are situated in rural villages. This is an indication that more still need to be done in terms of receiving and developing various sporting codes within the municipality. The municipality is experiencing challenge of vandalism on its infrastructure in particular sporting facilities. There is also no adequate budget for maintenance of these facilities, as a result some of this facilities are getting dilapidated. Another challenge is that of shortage of personnel to maintain and monitor these facilities.

3.18.2 INTERVENTIONS

The municipality to appropriately develop a program of sporting codes and engage all Ward Councillors and Traditional leaders with regards to sport development to maximize the utilization of sport centers. The municipality increases the budget for personnel.

COMPONENT I: CORPORATE POLICY OFFICES AND OTHER SERVICES

ANNUAL PERFORMANCE INFORMATION

SUMMARY OF PERFORMANCE FOR THE 2020/21 FINANCIAL YEAR

1. INTRODUCTION

The Greater Giyani Municipality 2020/21 annual performance report reflects the institution's service delivery and developmental achievements, as well as challenges, in recognition of the municipality's obligation to be an accountable, transparent and efficient organization. The compilation of this annual performance reports is done in compliance to various pieces of legislation. Key amongst such legislation are local Government: municipal system Act No. 32 of 2000, local Government: municipal finance management Act No 56 of 2003, and National Treasury circulars (especially circular 11 and 63.) The MSA and MFMA state that every municipality and entity must prepare an annual performance report which must form part of the annual report for each financial year in terms of the Act. This annual performance report is a reflection of the municipality's actual performance in relation to what was planned for in the IDP and SDBIP. It is therefore a post-reflection of planned targets and their actual with a provision for reasons for variance as well as mitigating\corrective measures taken. The annual performance report of the Greater Giyani municipality is aligned to the municipal IDP and Budget for the 2019\20 financial year and that it is aligned to the service delivery and Budget implementation plan and in-year reports.

2. PURPOSE

This annual performance report seeks to attain the following purpose:

- The provision of a report on performance in service delivery and budget implementation plan for the 2020/21 financial year
- To promote transparency and accountability for the activities and programmers of the municipality vis-a –vis the six key performance areas
- To provide a record of activities of the municipality for the 2020/21 financial year to which this report relates

3. THE ROAD MAP

The attached APR of GGM is a product of in-year reports which have been consistently submitted to Council Committees and Council. Upon the signing of the SDBIP 2020/21 on the 23 of July 2020, the Municipality facilitated the signing of performance agreements by the Senior Managers led by the Accounting Officer. Reports on the implementation of the SDBIP were sent to the Executive Committee on a monthly basis and to Council on quarterly basis.

The Greater Giyani Municipality was responsible for a total number of 116 Key Performance Indicators inclusive of projects for 2020/2021 financial year. The institution managed to achieve 68 indicators inclusive of projects ,45 targets were not achieved, while 3 were achieved in the previous financial year out of the planned 116 targets.

The overall institutional performance for 2020/2021 is at **59%** as compared to the **59%** for 2019/2020 financial year, which shows that we maintained same performance as previous financial year

The table below indicates progress per KPA

Key Performance Area	Annual Indicators Assessed	Total Achieved	Total Not Achieved	Percentages per KPA
KPA-1: Spatial Rational	16	04	12	25%

CHAPTER 4– ORGANISATIONAL DEVELOPMENT PERFORMANCE

INTRODUCTION

The municipal Organizational structure was aligned to IDP and budget. The structure was also adopted by the council. All skills gaps that were crucial in work performance were identified and training interventions were made to address skills gap. The institution comply with the national legislations

COMMENT ON VACANCIES AND TURNOVER:

The reason for high turnover is the retirement, death and resignation

COMPONENT B: MANAGING THE MUNICIPAL WORKFORCE

4.1. INTRODUCTION TO MUNICIPAL WORKFORCE MANAGEMENT

The Municipality has taken into cognizance the history of apartheid laws and practices with the resultant disparities and inequalities, in the spirit of Employment Equity Act is geared towards achieving employment equity across all occupational levels and categories and therefore in order to redress the imbalance of the past and move towards a human and representative Labor market underpinned by Equity, Equity redress and Affirmative Action. The Municipality has Employment Equity Plan and active/ functional Employment Equity Committee. 2020/21 Employment Equity report was timeously submitted to the Department of Labour. HR Policies are in place

4.2. POLICIES

COMMENT ON WORKFORCE POLICY DEVELOPMENT:

Over the years the Municipality has managed to develop all priority human resource policies, procedures and systems in line with the MSA 2000 (S67) to ensure fair, efficient, effective and transparent personnel administration. During 2020/21 emphasis was placed on improving implementation of the policies and amendment of those policies that were outdated. The implementation of the policies is monitored through Council resolution implementation report.

4.3. INJURIES, SICKNESS AND SUSPENSIONS

COMMENT ON INJURY AND SICK LEAVE:

(a) One (1) employee was injured on duty.

COMMENT ON SUSPENSIONS AND CASES OF FINANCIAL MISCONDUCT:

Only one (1) employees was suspended from council service with full pay pending the institution of disciplinary proceedings against them by the municipality.

4.4 PERFORMANCE REWARDS

The municipality paid two senior Managers performance awards to employees for 2020/21 financial year.

COMPONENT C: CAPACITATING THE MUNICIPAL WORKFORCE

INTRODUCTION TO WORK FORCE

COMPONENT C: CAPACITATING THE MUNICIPAL WORKFORCE

4.5 SKILLS

The Work Skills Plan and Annual Training Report were developed and submitted to LGSETA within time frame. The municipality complies with the plan. Mandatory and discretionary grants were claimed and received to assist training interventions.

1. Introduction and Legislation

The purpose of this report is to give feedback regarding the performance of the Greater Giyani Municipality as required by the Municipal Systems Act No 32 of 2000, section 41(e) and the Municipal Finance Management Act 56 of 2003, section 52(d). This report emanates from the Integrated Development Plan (IDP) and the Adjusted Service Delivery, Budget and Implementation Plan (SDBIP). The scorecards were developed to reflect cumulative performance, therefore the status of indicators are a reflection of the overall performance level achieved year to date.

METHODOLOGY FOLLOWED IN COMPILING THE REPORT

In terms of Section 46 of the Municipal Systems Act 32 of 2000, Municipalities are required to prepare for each financial year an annual performance reporting reflecting-

- (a) the performance of the municipality and of each external service provider during that financial year;
- (b) a comparison of the performances referred to in paragraph (a) with targets set for and performances in the previous financial year and
- (c) Measures taken to improve performance.

According to the provisions of the Municipal Systems Act, 32 of 2000, municipalities must monitor and measure the progress of their performance by preparing quarterly and mid-year performance reports and annual performance report, in terms of Chapter 6 of the MSA, on performance management systems. These quarterly and mid-year reports make up the municipality's annual performance reports (Section 46 report), which are submitted to the Auditor-General, together with the Annual financial statements, for auditing.

3. VISION AND MISSION

Vision

“A municipality where environmental sustainability, Agriculture and Tourism thrives for economic growth”

Mission

Democratic and accountable Municipality that ensures the provision of quality and sustainable services through sound environmental management practices, local economic development and community participation.

4. DEPARTMENTS

Greater Giyani Municipality administration is composed of the following departments: 1. Office of the Municipal Manager, 2. Corporate Services, 3. Planning & Development, 4. Budget and Treasury Office, 5. Technical Services, 6. Community Services

Municipal Manager	To lead, direct and manage a motivated and inspired Administration and account to the Greater Giyani Municipality Council as Accounting Officer for long term Municipal sustainability to achieve a good creditor rating within the requirements of the relevant legislation and whereas the following sections within the department, i.e. Performance Management, Risk Management and Internal Auditing is managed for integration, efficient, economic and effective communication and service delivery.
Budget and Treasury Office (Finance)	To secure sound and sustainable management of the financial affairs of Greater Giyani Municipality by managing the budget and treasury office and advising and if necessary, assisting the accounting officer and other directors in their duties and delegation contained in the MFMA. Ensuring that the Greater Giyani Municipality is 100% financially viable when it comes to Cost Coverage and to manage the Grant Revenue of the municipality so that no grant funding is foregone
Community Services	To coordinate Sports, Arts and culture, Library services, Traffic and Licensing Services, Community Safety, Environmental and Waste management, Parks and Cemeteries.
Technical Services	To ensure that the service delivery requirements for roads are met and maintenance of water, sewerage and electricity are conducted for access to basic services as well as no less than an average of 100% MIG expenditure
Planning and Development	To direct the Greater Giyani Municipality's resources for advanced economic development and investment growth through appropriate town and infrastructure planning in order that an environment is created whereby all residents will have a sustainable income
Corporate Services	To ensure efficient and effective operation of council services, human resources and management, Communication, Events and the provision of high quality customer orientated administrative systems. Ensuring 100% compliance to the Skills Development Plan

5. MUNICIPAL MANAGER'S OVERVIEW

The 2020/21 Financial Year brought with it some re-invigorated collective efforts from the municipal workforce, resulting in significant achievement recorded in the period under reporting. It goes without saying that just like everyone else in the country and around the globe was affected by the negative effects of the Covid -19 pandemic - which undermined progress in various areas of services, the Greater Giyani Municipality was not immune from the situation. However, we can safely say that under the circumstances, we managed to turn things around by ensuring compliance to covid-19 regulations without compromising services. We were quick to adjust to the new normal by adapting to the way of doing business through virtual meetings from remote areas. Importantly, we established a 24-hour hotline service through which we kept in touch with our communities and clients in need of various services. The Municipality has been able to improve the lives of the Greater Giyani communities through infrastructure development which include among others, electricity connections, high masts, sports centres, and paved roads. In view of the massive backlog on service delivery - exacerbated by low revenue collection on some of our projects, the municipality needs to accelerate implementation of the revenue enhancement strategy. This, in order to boost revenue collection.

It is highly concerning that our core functions of basic service delivery and infrastructure development were the most affected by the Covid-19 pandemic, we only achieving 59% on the planned targets. The national lockdown contributed to non- achievement of the missed targets of the financial year. However, we have come up with the corrective measures to remedy the situation, and we will surely turn the tide.

The institutional capacity of Greater Giyani remains the central pillar of service delivery enablers, hence, we have managed to construct the new municipal building to accommodate all our departments in one roof, for efficient coordination of administration. Meanwhile the high vacancy rate remains a serious challenge due to limited financial resources and high personnel turnover.

This report is based on information received from each department. This in view of the municipal performance in the 2020/21 financial year ending on the 30th of June 2021. It is a high-level report based on scores obtained through a process whereby actual information related to Key Performance Area (KPA), Strategic Objective, Programme and the aligned Key Performance Indicators are compared to the approved 2020/21 IDP and Adjusted SDBIP scorecards.

OVERVIEW OF SERVICE DELIVERY ACHIEVEMENTS

Water

The municipality provides 6 kilolitres of free basic water to all households with piped water. Boreholes are also used in communities where there is an acute shortage of water to augment the supply; the municipality is paying for diesel and electricity used for pumping water to the communities.

Electricity

Electricity is generated and distributed by Eskom. Electricity and energy are provided by means of the following sources: • Grid electricity, which is supplied from power stations. • Non-Grid electricity generated from solar panels, petrol and diesel generators, as well as • Other sources of energy which include batteries, paraffin, coal, wood, candles, gas, etc.

The municipality also provides free basic electricity to all qualifying household by providing electricity tokens worth 50khw.

Sanitation

Sanitation is a major problem, which also contributes to health hazards and underground water pollution. Most of the people within the municipal jurisdiction area use pit latrines (22.5% in 2011) without ventilation while others have no sanitation facilities at all (54.9% in 2011). 22.2% of Households had RDP standard sanitation in 2011 with 41 108 (77.8%) households still below the RDP standard. The department of water and sanitation is in the planning process of constructing new sewer treatment works to augment the existing plant. (STATS SA 2011)

Refuse removal / solid waste

The municipality has two solid waste disposal sites. The legal status of the old site is challenged since it does not adhere to the requirements of the Department of Environmental Affairs and Tourism. The site is located at the confluence of Murhogolo and Klein Letaba rivers and waste material overflows and contaminate rivers, causing health hazards. Littering and illegal dumping is also a major problem, particularly in the CBD area of Giyani Town and along the main roads. There is no proper refuse removal systems in the rural areas (63.2% use their own dump site) therefore, causing a health hazard. The municipality is intending to extend this service to rural areas (8 villages). A new land fill site has been established and has acquired the related legal status. The site is not functional. Fencing is completed and this financial year, the second phase will commence. The municipality currently is responsible for maintenance of the Waste Disposal Site.

Roads and stormwater

The road network within Municipal area which was damaged by the rainfall during 2000 has been repaired. What remains now is for provisions to be made to ensure that they are maintained regularly. Most of the roads need rehabilitation and maintenance and bridges need to be repaired. Giyani has 79km of provincial tarred road and 608km of gravel road.

Project Management

The Municipality has completed 15 projects under building, roads and electrification ,7 projects were not achieved while 6 appointments were made for construction of roads and municipal parking lot which are anticipated for completion for 2021/22 financial year

The Municipality spent 100% of its MIG budget and was allocated a bonus of R12Million

MUNICIPAL MANAGER

DATE

6. Institutional Performance

The institution was responsible for a total number of 126 indicators and 10 were withdrawn after adjusting the SDBIP. Only 116 KPI's inclusive of Projects were assessed. Withdrawn target were from the following KPA's:

KPA 3. Basic Service Delivery

The municipality did not fully achieve its planned targets on Spatial Rationale and Basic Service Delivery which contributed to the municipality not achieving 100% of planned targets in the approved Service Delivery and Budget Implementation Plan. The overall institutional performance for 2020/2021 financial year as of 30 June 2021 was at 59%. All the assessed KPI's and Projects contribute to the overall performance level of the combined IDP and SDBIP Scorecards as reflected in this report. Institutional statistics were as follows:

7. Comparison of Institutional Performance Levels 2019/2020 – 2020/2021 Financial Year

In terms of Section 46 of the Municipal Systems Act, paragraph (b) : the municipality must prepare for each financial year a performance report reflecting a comparison of performance referred to in paragraph (a) with targets set for and performances in the previous financial year.

The Greater Giyani Municipality was responsible for a total number of 116 Key Performance Indicators inclusive of projects for 2020/2021 financial year. The institution managed to achieve 68 indicators inclusive of projects ,45 targets were not achieved, while 3 were achieved in the previous financial year out of the planned 116 targets.

The overall institutional performance for 2020/2021 is at **59%** as compared to the **59%** for 2019/2020 financial year, which shows that we maintained same performance as previous financial year

Greater Giyani Municipality

(Registration number LIM331)

Audited Annual Financial Statements for the year ended 30 June 2021

Accounting Officer's Responsibilities and Approval

The accounting officer is required by the Municipal Finance Management Act (Act 56 of 2003), to maintain adequate accounting records and is responsible for the content and integrity of the audited annual financial statements and related financial information included in this report. It is the responsibility of the accounting officer to ensure that the audited annual financial statements fairly present the state of affairs of the municipality as at the end of the financial year and the results of its operations and cash flows for the period then ended. The external auditors are engaged to express an independent opinion on the audited annual financial statements and was given unrestricted access to all financial records and related data.

The audited annual financial statements have been prepared in accordance with Standards of Generally Recognised Accounting Practice (GRAP) including any interpretations, guidelines and directives issued by the Accounting Standards Board.

The audited annual financial statements are based upon appropriate accounting policies consistently applied and supported by reasonable and prudent judgements and estimates.

The accounting officer acknowledges that he is ultimately responsible for the system of internal financial control established by the municipality and place considerable importance on maintaining a strong control environment. To enable the accounting officer to meet these responsibilities, the accounting officer sets standards for internal control aimed at reducing the risk of error or deficit in a cost effective manner. The standards include the proper delegation of responsibilities within a clearly defined framework, effective accounting procedures and adequate segregation of duties to ensure an acceptable level of risk. These controls are monitored throughout the municipality and all employees are required to maintain the highest ethical standards in ensuring the municipality's business is conducted in a manner that in all reasonable circumstances is above reproach. The focus of risk management in the municipality is on identifying, assessing, managing and monitoring all known forms of risk across the municipality. While operating risk cannot be fully eliminated, the municipality endeavours to minimise it by ensuring that appropriate infrastructure, controls, systems and ethical behaviour are applied and managed within predetermined procedures and constraints.

The accounting officer is of the opinion, based on the information and explanations given by management, that the system of internal control provides reasonable assurance that the financial records may be relied on for the preparation of the audited annual financial statements. However, any system of internal financial control can provide only reasonable, and not absolute, assurance against material misstatement or deficit.

The accounting officer has reviewed the municipality's cash flow forecast for the year to 30 June 2022 and, in the light of this review and the current financial position, he is satisfied that the municipality has or has access to adequate resources to continue in operational existence for the foreseeable future.

The municipality is wholly dependent on the municipality for continued funding of operations. The audited annual financial statements are prepared on the basis that the municipality is a going concern and that the municipality has neither the intention nor the need to liquidate or curtail materially the scale of the municipality.

Although the accounting officer are primarily responsible for the financial affairs of the municipality, they are supported by the municipality's external auditors.

The external auditors are responsible for independently reviewing and reporting on the municipality's audited annual financial statements.

The audited annual financial statements set out on page 9 - 104, which have been prepared on the going concern basis, were approved by the accounting officer on 31 August 2021 and were signed on its behalf by:

M. M. Chauke
Municipal Manager

AUDIT COMMITTEE ANNUAL REPORT 2020/21

We are pleased to present our report for the financial year ended 30 June 2021

1. Audit Committee Responsibility

The Audit Committee reports that it has complied with its responsibilities arising from Section 166 of the Municipal Finance Management Act and Circular 65 issued by National Treasury. The Audit Committee also reports that it has adopted appropriate formal terms of reference as its Audit Committee Charter, and it has regulated its affairs in compliance with this charter and has discharged all its responsibilities as contained therein, except that we have not reviewed changes in accounting policies and practices.

2. Audit Committee members and attendance

The Audit Committee, consisting of independent outside members, meets at least four times per annum as per its approved terms of reference, although additional special meetings may be called as the need arises. The table below illustrates the number of meetings held during the 2020/2021 financial year and the attendance thereof by members:

Surname and Initial	Ordinary meeting	Special meetings	Total
Ngobeni SAB	4	2	6
Ramutsheli MP	4	2	6
Sikhosana M	4	2	6
Baloyi N	4	2	6

3. The Effectiveness of Internal Control

Internal control environment system has improved significantly. However, there were several deficiencies in the system of internal control and/or deviations there were reported by the internal auditors and the Auditor-General.

4. In-Year Management and Monthly/Quarterly Report

The municipality does have an effective monthly and quarterly reporting system to the Council as required by the Municipal Finance Management Act (MFMA).

5. Performance Management

The AC reviewed functionality of the performance management system and it appears to be functional, however there is a room for improvement in so far as achievement of planned targets is concerned and capacitating the Performance Management Unit.

6. Risk Management

The AC is of the opinion that municipality's risk management appears to be effective for the better of the year in material respect, and the municipality did implement a comprehensive risk management strategy and related policies. Management has sound and effective approach has been followed in developing strategic risk management plans and there is a sense of appreciation of the impact of the municipality's risk management framework on the control environment. However, there is a room for improvement in so far as implementation of hotline as part of fraud prevention strategy.

7. Compliance with laws and regulations

A number of non-compliance with the enabling laws and regulations were revealed by Audit Committee, AGSA, and Internal Audit during the year. Consequently, an establishment an effective system for monitoring compliance with laws and regulations and the results of management's investigation and follow-up (including disciplinary action) of any instances of non-compliance is key.

8. Internal Audit

The AC is satisfied with the effectiveness of Internal Audit and commend Management and Council for capacitating this unit. However, there is a need to fast-track the implementation of Combined Assurance Model.

9. Progress in implementation of Internal Audit and AGSA findings from prior year

AGSA and Internal Audit recommendations were material implemented by management at the time of this report.

10. Implementations of Audit Committee Recommendations by management

A material number of Audit Committee recommendations to management were implemented which is commendable.

11. Draft Annual Financial Statements and Annual Performance Report

Audit Committee reviewed the draft unaudited Annual Financial Statements and draft Annual Performance report before submission to AGSA for audit and concur with the submission subject to all the inputs being factor in by management.

12. Conclusion

The Audit Committee wishes to acknowledge the commitment from Council, management and staff of the municipality. The stability in terms of the political and administrative leadership of the municipality has contributed to these improvements reported above. We would also like to thank the Mayor for her support, Councillors, senior management for their efforts and internal audit for their contribution.

SAB Ngobeni (Mr)
Chairperson of the Audit Committee
Greater Giyani Municipality
August 2021

To the Provincial Legislature of Greater Giyani Municipality

Auditor General South Africa (AGSA)

31 August 2021

Greater Giyani Municipality

(Registration number LIM331)

Audited Annual Financial Statements for the year ended 30 June 2021

Accounting Officer's Report

The accounting officer submits his report for the year ended 30 June 2021.

1. Review of activities

Main business and operations

The municipality is engaged in greater giyani municipality is a municipality performing functions set out in the constitution (act 108 of 1996). providing services to the community as covered in the jurisdiction. and operates principally in South Africa.

The operating results and state of affairs of the municipality are fully set out in the attached audited annual financial statements and do not in our opinion require any further comment.

2. Going concern

We draw attention to the fact that at 30 June 2021, the municipality had an accumulated surplus of 1 184 364 275 and that the municipality's total assets exceed its liabilities by 1 184 364 275.

The audited annual financial statements have been prepared on the basis of accounting policies applicable to a going concern. This basis presumes that funds will be available to finance future operations and that the realisation of assets and settlement of liabilities, contingent obligations and commitments will occur in the ordinary course of business.

3. Subsequent events

During and post financial year the municipality experienced a number of Covid-19 cases and offices were closed for 16 combined number of days post financial year, this has an impact on the operation of the municipality taking into account that different Covid-19 levels necessitated that the municipality operates on a rotational basis based on the approved Covid-19 approved operational plan.

The Municipality had a contractual relationship with Eternity Star Investment 231CC in 2019 for the construction of new landfill site for an amount of R 8 140 279. The matter ended up in court mainly due to poor workmanship and the service provider concedes. On the 5th September 2021 the Municipality was notified by its bank ABSA that they have received a warrant of execution from the Sheriff of the court to attach an amount of R 10 931 266, 27 (capital and interest) which came as a surprise to management since according to records the municipality has through its attorneys of record filed a notice to apply for the judgment to be rescinded. The municipality is awaiting the hearing of the application for leave to appeal the dismissal of its application to stay the writ of execution as well as the application for the rescission of the default judgement on 05-10-2022 at the Polokwane Division of the High Court.

Council approved the motivation to pay performance bonus to senior managers for the 2019/20 financial year with the Municipal Manager being paid the maximum of 14% for performance bonus and Director Corporate Services paid a maximum of 9% performance bonus respectively per Council Resolution No. CR02-30/08/21 SP. Subsequently an amount of R177 389 and R93 629 were paid to the Municipal Manager and Director Corporate Services respectively during the month of September 2021 as part of annual performance bonus.

The Local Government elections took place on the 1st of November 2021, and subsequently Greater Giyani Municipality appointed a new Council on the 22nd November 2021 with the new Mayor, Speaker, MPAC Chairperson, Chief Whip and members of Executive Committee.

The Municipality invested an amount of R159 262 692 with the Venda Bank Society (VBS) dating back 2018, subsequent to this the Municipality lodged a claim with the bank curator in order to recoup amounts invested. The Municipality eventually received an amount of R10 727 810 during the month of February 2022. The efforts are underway with the curator to recoup other funds subject to curator efforts on collection of amounts from the defaulters.

4. Accounting Officer

The accounting officer for the municipality during the year under review was:

Chauke M M

Greater Giyani Municipality

(Registration number LIM331)

Audited Annual Financial Statements for the year ended 30 June 2021

Accounting Officer's Report

5. Impact of COVID-19 on Municipal operations

The Covid-19 pandemic had a negative impact on the operations of the municipality, due to this the anticipated revenue of the municipality was not achieved as the pandemic had a negative economic outlook leading to several customer's unable to fulfil their obligations on the payment of accounts, including businesses. Due to the pandemic, the Municipality was also expected to carry out additional activities including frequent refuse removal, extra-ordinary cleaning of public facilities, monitoring of social gatherings, environmental health inspection etc.

6. COVID 19 relief

The Municipality received an additional funds for an amount of R 62 275 000.00 on the original allocated budget of R369 568 000.00 on the Equitable Share as a relief due to Covid-19. Due to loss of revenue the funds have been used to cover expenses that would have been used on the normal course of operations.

7. Auditors

Auditor General South Africa (AGSA) will continue in office for the next financial period.

The audited annual financial statements set out on page 17, which have been prepared on the going concern basis, were approved by the accounting officer on 31 August 2021 and were signed on by:

M. M. Chauke
Municipal Manager

EXPLANATION OF DIFFERENCES BETWEEN FINAL BUDGET AND ACTUAL AMOUNTS

A. Services charges

Adjusted budget was based on the six (6) months billing trends and the municipality subsequently performed a reconciliation of refuse removal where corrective adjustments were processed which in turn increased refuse removal billing.

B. Rental of facilities and equipment

Adjusted budget was based on the six (6) months billing trends and the municipality subsequently performed a reconciliation of properties rental where corrective adjustments were processed which in turn increased refuse removal billing.

C. Interest on overdue accounts

Impact of revenue collection due to COVID-19 pandemic resulted in an increased debtor's book and increase the interest on outstanding debtors

D. Income from agency services

The municipality had not budget for agency income in the final approved budget.

Greater Giyani Municipality

Budget on Cash Basis

	Approved budget	Adjustments	Final Budget	Actual amounts on comparable basis	Difference between final budget and actual	Reference
--	-----------------	-------------	--------------	------------------------------------	--	-----------

Figures in Rand

Recognition of agency income was calculated and disclosed at year end in the Annual Financial Statements.

E. Licences and permits

This was due to COVID-19 impact because the traffic station was not operating the whole of January 2021 and would also close as and when there are COVID-19 cases reported.

F. Actuarial gains

The actuarial gain is attributable to membership changes arising primarily due to the exit of several in-service members aged 59 or older, none of whom continued with the medical aid subsidy.

G. Other income

The budget for other income includes sale of stands which was not recognised as revenue at year end and is awaiting registration process at deeds office, for now they are recognised as inventory.

H. Depreciation

There were new assets additions for movable or infrastructure assets during the financial year, therefore more depreciation was calculated.

I. Impairment loss

Impairment loss was incurred due to the decrease in the value of damaged assets and assets which their life span has reduced drastically.

J. Finance costs

Finance costs were incurred due to cost, interest and other charges involved during the rental of photocopies, radiophones and computers.

K. Rentals on operating lease

The municipality has terminated the rental of Limdev offices in the current financial year.

L. Debt impairment

The municipality debt book has increased due to slow revenue collection which in turn increased the provision for debt impairment.

M. Contracted Services

All electrification projects that were not completed at year end were transferred to WIP, whereas the budget was under contracted services.

N. Actuarial loss

Actuarial loss on LSA is due to earnings increases higher than estimated or assumptions discount rate of 9.27% as compared to 7.29% in 2020, general inflation rate of 5.79% as compared to 3.94% in 2020 and net discount rate of 3.29% as compared to 3.22% in 2020). The changes to employees profile different to previously assumed also had an impact

O. Repairs and maintenance

Some of the maintenance projects were capital in nature and were capitalized at year-end, whereas they were budgeted under repairs and maintenance.

Figures in Rand

EXPLANATION OF DIFFERENCES BETWEEN APPROVED BUDGET AND FINAL ADJUSTED BUDGET

P. Services Charges

The reconciliation of all services was performed, corrective adjustments were processed which in turn increased refuse removal budget.

Q. Rental of facilities

This is due to the impact of covid 19 pandemic since gatherings were no longer allowed.

R. Licence and permits

This was due to covid 19 impact because the traffic station was closed as and when there are cases

S. Other Income

The collection for sale of stands was higher for the first six months of the financial and projected to sell more by the end of June 2021.

T. Interest received – Investment

The budget was decreased during the adjustment budget because of the actuals interest received from July to December 2020.

U. Traffic fines

The municipality did not have an appointed Law Enforcement Agency in the period under review as compared to the prior financial years. The reduction of the traffic fine budget was as the result of that.

V. Employee Related Costs

The municipality did not have an appointed Law Enforcement Agency in the period under review as compared to the prior financial years. The reduction of the traffic fine budget was as the result of that.

W. Repairs and Maintenance

The budget was increased due to the need by the community to maintain roads after the heavy rains of January 2021.

The accounting policies on pages 30 to 53 and the notes on pages 54 to 104 form an integral part of the audited annual financial statements.

Greater Giyani Municipality

(Registration number LIM331)

Audited Annual Financial Statements for the year ended 30 June 2021

Accounting Policies

Figures in Rand	Note(s)	2021	2020
-----------------	---------	------	------

1. Presentation of Audited Annual Financial Statements

The audited annual financial statements have been prepared in accordance with the Standards of Generally Recognised Accounting Practice (GRAP), issued by the Accounting Standards Board in accordance with Section 122(3) of the Municipal Finance Management Act (Act 56 of 2003).

These audited annual financial statements have been prepared on an accrual basis of accounting and are in accordance with historical cost convention as the basis of measurement, unless specified otherwise. They are presented in South African Rand.

A summary of the significant accounting policies, which have been consistently applied in the preparation of these audited annual financial statements, are disclosed below.

These accounting policies are consistent with the previous period.

1.1 Presentation currency

These audited annual financial statements are presented in South African Rand, which is the functional currency of the municipality.

1.2 Going concern assumption

These audited annual financial statements have been prepared based on the expectation that the municipality will continue to operate as a going concern for at least the next 12 months.

1.3 Materiality

Material omissions or misstatements of items are material if they could, individually or collectively, influence the decisions or assessments of users made on the basis of the financial statements. Materiality depends on the nature or size of the omission or misstatement judged in the surrounding circumstances. The nature or size of the information item, or a combination of both, could be the determining factor.

Assessing whether an omission or misstatement could influence decisions of users, and so be material, requires consideration of the characteristics of those users. The Framework for the Preparation and Presentation of Financial Statements states that users are assumed to have a reasonable knowledge of government, its activities, accounting and a willingness to study the information with reasonable diligence. Therefore, the assessment takes into account how users with such attributes could reasonably be expected to be influenced in making and evaluating decisions.

1.4 Significant judgements and sources of estimation uncertainty

In preparing the audited annual financial statements, management is required to make estimates and assumptions that affect the amounts represented in the audited annual financial statements and related disclosures. Use of available information and the application of judgement is inherent in the formation of estimates. Actual results in the future could differ from these estimates which may be material to the audited annual financial statements. Significant judgements include:

Trade receivables

The municipality assesses its trade receivables for impairment at the end of each reporting period. In determining whether an impairment loss should be recorded in surplus or deficit, the surplus makes judgements as to whether there is observable data indicating a measurable decrease in the estimated future cash flows from a financial asset.

The impairment for trade receivables, held to maturity investments and loans and receivables is calculated on a portfolio basis, based on historical loss ratios, adjusted for national and industry-specific economic conditions and other indicators present at the reporting date that correlate with defaults on the portfolio. These annual loss ratios are applied to loan balances in the portfolio and scaled to the estimated loss emergence period.

Greater Giyani Municipality

(Registration number LIM331)

Audited Annual Financial Statements for the year ended 30 June 2021

Accounting Policies

1.4 Significant judgements and sources of estimation uncertainty (continued)

Fair value estimation

The fair value of financial instruments traded in active markets (such as trading and available-for-sale securities) is based on quoted market prices at the end of the reporting period. The quoted market price used for financial assets held by the municipality is the current bid price.

The fair value of financial instruments that are not traded in an active market (for example, over-the counter derivatives) is determined by using valuation techniques. The municipality uses a variety of methods and makes assumptions that are based on market conditions existing at the end of each reporting period. Quoted market prices or dealer quotes for similar instruments are used for long-term debt. Other techniques, such as estimated discounted cash flows, are used to determine fair value for the remaining financial instruments. The fair value of interest rate swaps is calculated as the present value of the estimated future cash flows. The fair value of forward foreign exchange contracts is determined using quoted forward exchange rates at the end of the reporting period.

The carrying value less impairment provision of trade receivables and payables are assumed to approximate their fair values. The fair value of financial liabilities for disclosure purposes is estimated by discounting the future contractual cash flows at the current market interest rate that is available to the municipality for similar financial instruments.

The carrying amount of available-for-sale financial assets would be an estimated - lower or - higher were the discounted rate used in the discount cash flow analysis to differ by 10% from management's estimates.

Impairment testing

The recoverable amounts of cash-generating units and individual assets have been determined based on the higher of value-in-use calculations and fair values less costs to sell. These calculations require the use of estimates and assumptions.

The municipality reviews and tests the carrying value of assets when events or changes in circumstances suggest that the carrying amount may not be recoverable. In addition, goodwill is tested on an annual basis for impairment. Assets are grouped at the lowest level for which identifiable cash flows are largely independent of cash flows of other assets and liabilities. If there are indications that impairment may have occurred, estimates are prepared of expected future cash flows for each group of assets. Expected future cash flows used to determine the value in use of goodwill and tangible assets are inherently uncertain and could materially change over time.

Provisions

Provisions were raised and management determined an estimate based on the information available. Additional disclosure of these estimates of provisions are included in note 18 - Provisions.

Post-retirement benefits

The present value of the post-retirement obligation depends on a number of factors that are determined on an actuarial basis using a number of assumptions. The assumptions used in determining the net cost (income) include the discount rate. Any changes in these assumptions will impact on the carrying amount of post-retirement obligations.

The municipality determines the appropriate discount rate at the end of each year. This is the interest rate that should be used to determine the present value of estimated future cash outflows expected to be required to settle the pension obligations. In determining the appropriate discount rate, the municipality considers the interest rates of high-quality corporate bonds that are denominated in the currency in which the benefits will be paid, and that have terms to maturity approximating the terms of the related pension liability.

Other key assumptions for pension obligations are based on current market conditions. Additional information is disclosed in Note 8.

Effective interest rate

The municipality used the prime interest rate to discount future cash flows.

Greater Giyani Municipality

(Registration number LIM331)

Audited Annual Financial Statements for the year ended 30 June 2021

Accounting Policies

1.4 Significant judgements and sources of estimation uncertainty (continued)

Allowance for doubtful debts

On debtors an impairment loss is recognised in surplus and deficit when there is objective evidence that it is impaired. The impairment is measured as the difference between the debtors carrying amount and the present value of estimated future cash flows discounted at the effective interest rate, computed at initial recognition.

1.5 Investment property

Investment property is property (land or a building - or part of a building - or both) held to earn rentals or for capital appreciation or both, rather than for:

- use in the production or supply of goods or services or for
- administrative purposes, or
- sale in the ordinary course of operations.

Investment property is recognised as an asset when, it is probable that the future economic benefits or service potential that are associated with the investment property will flow to the municipality, and the cost or fair value of the investment property can be measured reliably.

Investment property is initially recognised at cost

Investment property is carried at cost less accumulated depreciation and any impairment losses.

The useful lives of items of investment property has been assessed as follows:

Straight line method	30 years
----------------------	----------

Investment property is derecognised on disposal or when the investment property is permanently withdrawn from use and no future economic benefits or service potential are expected from its disposal.

Gains or losses arising from the retirement or disposal of investment property is the difference between the net disposal proceeds and the carrying amount of the asset and is recognised in surplus or deficit in the period of retirement or disposal.

1.6 Property, plant and equipment

Property, plant and equipment are tangible non-current assets (including infrastructure assets) that are held for use in the production or supply of goods or services, rental to others, or for administrative purposes, and are expected to be used during more than one period.

The cost of an item of property, plant and equipment is recognised as an asset when:

- it is probable that future economic benefits or service potential associated with the item will flow to the municipality; and
- the cost of the item can be measured reliably.

Property, plant and equipment is initially measured at cost.

The cost of an item of property, plant and equipment is the purchase price and other costs attributable to bring the asset to the location and condition necessary for it to be capable of operating in the manner intended by management. Trade discounts and rebates are deducted in arriving at the cost.

Where an asset is acquired through a non-exchange transaction, its cost is its fair value as at date of acquisition.

Where an item of property, plant and equipment is acquired in exchange for a non-monetary asset or monetary assets, or a combination of monetary and non-monetary assets, the asset acquired is initially measured at fair value (the cost). If the acquired item's fair value was not determinable, it's deemed cost is the carrying amount of the asset(s) given up.

When significant components of an item of property, plant and equipment have different useful lives, they are accounted for as separate items (major components) of property, plant and equipment.

Greater Giyani Municipality

(Registration number LIM331)

Audited Annual Financial Statements for the year ended 30 June 2021

Accounting Policies

1.6 Property, plant and equipment (continued)

Costs include costs incurred initially to acquire or construct an item of property, plant and equipment and costs incurred subsequently to add to, replace part of, or service it. If a replacement cost is recognised in the carrying amount of an item of property, plant and equipment, the carrying amount of the replaced part is derecognised.

Recognition of costs in the carrying amount of an item of property, plant and equipment ceases when the item is in the location and condition necessary for it to be capable of operating in the manner intended by management.

Items such as spare parts, standby equipment and servicing equipment are recognised when they meet the definition of property, plant and equipment.

Property, plant and equipment is carried at cost less accumulated depreciation and any impairment losses.

Property, plant and equipment are depreciated on the straight-line basis over their expected useful lives to their estimated residual value.

Property, plant and equipment is carried at cost less accumulated depreciation and any impairment losses.

The useful lives of items of property, plant and equipment have been assessed as follows:

Item	Depreciation method	Average useful life
Buildings	Straight-line	30 years
Plant and machinery	Straight-line	
• Graders		5-15 years
• Tractors		5-15 years
• Lawn mowers		5-15 years
• Compressors		5-15 years
• Radio equipment		5-15 years

• Other fire fighting equipment		15 years
• Emergency equipment		5 years
Heritage		
• Mayoral chain		No asset life as no depreciation is charged
• Mace	Straight-line	No asset life as no depreciation is charged
• Mayoral gown	Straight-line	No asset life as no depreciation is charged

The depreciable amount of an asset is allocated on a systematic basis over its useful life.

The depreciation method used reflects the pattern in which the asset's future economic benefits or service potential are expected to be consumed by the municipality. The depreciation method applied to an asset is reviewed at least at each reporting date and, if there has been a significant change in the expected pattern of consumption of the future economic benefits or service potential embodied in the asset, the method is changed to reflect the changed pattern. Such a change is accounted for as a change in an accounting estimate.

The municipality assesses at each reporting date whether there is any indication that the municipality expectations about the residual value and the useful life of an asset have changed since the preceding reporting date. If any such indication exists, the municipality revises the expected useful life and/or residual value accordingly. The change is accounted for as a change in an accounting estimate.

Items of property, plant and equipment are derecognised when the asset is disposed of or when there are no further economic benefits or service potential expected from the use of the asset.

The gain or loss arising from the derecognition of an item of property, plant and equipment is included in surplus or deficit when the item is derecognised. The gain or loss arising from the derecognition of an item of property, plant and equipment is determined as the difference between the net disposal proceeds, if any, and the carrying amount of the item.

The municipality separately discloses expenditure to repair and maintain property, plant and equipment in the notes to the financial statements (see note).

The municipality discloses relevant information relating to assets under construction or development, in the notes to the financial statements (see note).

1.7 Intangible assets

An intangible asset is recognised when:

- it is probable that the expected future economic benefits or service potential that are attributable to the asset will flow to the municipality; and
- the cost or fair value of the asset can be measured reliably.

The municipality assesses the probability of expected future economic benefits or service potential using reasonable and supportable assumptions that represent management's best estimate of the set of economic conditions that will exist over the useful life of the asset.

Greater Giyani Municipality

(Registration number LIM331)

Audited Annual Financial Statements for the year ended 30 June 2021

Accounting Policies

1.7 Intangible assets (continued)

Where an intangible asset is acquired through a non-exchange transaction, its initial cost at the date of acquisition is measured at its fair value as at that date.

Intangible assets are carried at cost less any accumulated amortisation and any impairment losses.

An intangible asset is regarded as having an indefinite useful life when, based on all relevant factors, there is no foreseeable limit to the period over which the asset is expected to generate net cash inflows or service potential. Amortisation is not provided for these intangible assets, but they are tested for impairment annually and whenever there is an indication that the asset may be impaired. For all other intangible assets amortisation is provided on a straight-line basis over their useful life.

The amortisation period and the amortisation method for intangible assets are reviewed at each reporting date.

Amortisation is provided to write down the intangible assets, on a straight-line basis, to their residual values as follows:

Item	Depreciation method	Average useful life
Computer software-licenses	Straight-line	12 months

The municipality discloses relevant information relating to assets under construction or development, in the notes to the financial statements (see note).

1.8 Heritage assets

Heritage assets are assets that have a cultural, environmental, historical, natural, scientific, technological or artistic significance and are held indefinitely for the benefit of present and future generations. No assets lives are allocated.

Recognition

The municipality recognises a heritage asset as an asset if it is probable that future economic benefits or service potential associated with the asset will flow to the municipality, and the cost or fair value of the asset can be measured reliably.

Initial measurement

Heritage assets are measured at cost.

Where a heritage asset is acquired through a non-exchange transaction, its cost is measured at its fair value as at the date of acquisition.

Subsequent measurement

After recognition as an asset, a class of heritage assets is carried at its cost less any accumulated impairment losses.

Impairment

The municipality assesses at each reporting date whether there is an indication that it may be impaired. If any such indication exists, the municipality estimates the recoverable amount or the recoverable service amount of the heritage asset.

Derecognition

The municipality derecognises heritage asset on disposal, or when no future economic benefits or service potential are expected from its use or disposal.

The gain or loss arising from the derecognition of a heritage asset is included in surplus or deficit when the item is derecognised (unless the Standard of GRAP on leases requires otherwise on a sale and leaseback).

1.9 Financial instruments

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or a residual interest of another entity.

Greater Giyani Municipality

(Registration number LIM331)

Audited Annual Financial Statements for the year ended 30 June 2021

Accounting Policies

1.9 Financial instruments (continued)

The amortised cost of a financial asset or financial liability is the amount at which the financial asset or financial liability is measured at initial recognition minus principal repayments, plus or minus the cumulative amortisation using the effective interest method of any difference between that initial amount and the maturity amount, and minus any reduction (directly or through the use of an allowance account) for impairment or uncollectibility.

Derecognition is the removal of a previously recognised financial asset or financial liability from an entity's statement of financial position.

The effective interest method is a method of calculating the amortised cost of a financial asset or a financial liability (or group of financial assets or financial liabilities) and of allocating the interest income or interest expense over the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash payments or receipts through the expected life of the financial instrument or, when appropriate, a shorter period to the net carrying amount of the financial asset or financial liability. When calculating the effective interest rate, an entity shall estimate cash flows considering all contractual terms of the financial instrument (for example, prepayment, call and similar options) but shall not consider future credit losses. The calculation includes all fees and points paid or received between parties to the contract that are an integral part of the effective interest rate (see the Standard of GRAP on Revenue from Exchange Transactions), transaction costs, and all other premiums or discounts. There is a presumption that the cash flows and the expected life of a group of similar financial instruments can be estimated reliably. However, in those rare cases when it is not possible to reliably estimate the cash flows or the expected life of a financial instrument (or group of financial instruments), the entity shall use the contractual cash flows over the full contractual term of the financial instrument (or group of financial instruments).

Initial recognition

The entity recognises a financial asset or a financial liability in its statement of financial position when the entity becomes a party to the contractual provisions of the instrument.

Initial measurement of financial assets and financial liabilities

The entity measures a financial asset and financial liability initially at its fair value plus transaction costs that are directly attributable to the acquisition or issue of the financial asset or financial liability.

Subsequent measurement of financial assets and financial liabilities

The entity measures all financial assets and financial liabilities after initial recognition using the following categories:

Financial instruments at amortised cost.

All financial assets measured at amortised cost, or cost, are subject to an impairment review.

Fair value measurement considerations

The best evidence of fair value is quoted prices in an active market. If the market for a financial instrument is not active, the entity establishes fair value by using a valuation technique. The objective of using a valuation technique is to establish what the transaction price would have been on the measurement date in an arm's length exchange motivated by normal operating considerations. Valuation techniques include using recent arm's length market transactions between knowledgeable, willing parties, if available, reference to the current fair value of another instrument that is substantially the same, discounted cash flow analysis and option pricing models. If there is a valuation technique commonly used by market participants to price the instrument and that technique has been demonstrated to provide reliable estimates of prices obtained in actual market transactions, the entity uses that technique. The chosen valuation technique makes maximum use of market inputs and relies as little as possible on entity-specific inputs. It incorporates all factors that market participants would consider in setting a price and is consistent with accepted economic methodologies for pricing financial instruments. Periodically, a municipality calibrates the valuation technique and tests it for validity using prices from any observable current market transactions in the same instrument (i.e. without modification or repackaging) or based on any available observable market data.

Reclassification

The entity does not reclassify a financial instrument while it is issued or held unless it is:

combined instrument that is required to be measured at fair value; or

Greater Giyani Municipality

(Registration number LIM331)

Audited Annual Financial Statements for the year ended 30 June 2021

Accounting Policies

1.9 Financial instruments (continued)

an investment in a residual interest that meets the requirements for reclassification.

If fair value can no longer be measured reliably for an investment in a residual interest measured at fair value, the entity reclassifies the investment from fair value to cost. The carrying amount at the date that fair value is no longer available becomes the cost.

If a reliable measure becomes available for an investment in a residual interest for which a measure was previously not available, and the instrument would have been required to be measured at fair value, the entity reclassifies the instrument from cost to fair value.

Gains and losses

A gain or loss arising from a change in the fair value of a financial asset or financial liability measured at fair value is recognised in surplus or deficit.

For financial assets and financial liabilities measured at amortised cost or cost, a gain or loss is recognised in surplus or deficit when the financial asset or financial liability is derecognised or impaired, or through the amortisation process.

Impairment and uncollectibility of financial assets

The entity assess at the end of each reporting period whether there is any objective evidence that a financial asset or group of financial assets is impaired.

Financial assets measured at amortised cost:

If there is objective evidence that an impairment loss on financial assets measured at amortised cost has been incurred, the amount of the loss is measured as the difference between the asset's carrying amount and the present value of estimated future cash flows (excluding future credit losses that have not been incurred) discounted at the financial asset's original effective interest rate. The carrying amount of the asset is reduced through the use of an allowance account. The amount of the loss is recognised in surplus or deficit.

If, in a subsequent period, the amount of the impairment loss decreases and the decrease can be related objectively to an event occurring after the impairment was recognised, the previously recognised impairment loss is reversed by adjusting an allowance account. The reversal does not result in a carrying amount of the financial asset that exceeds what the amortised cost would have been had the impairment not been recognised at the date the impairment is reversed. The amount of the reversal is recognised in surplus or deficit.

Financial assets measured at cost:

If there is objective evidence that an impairment loss has been incurred on an investment in a residual interest that is not measured at fair value because its fair value cannot be measured reliably, the amount of the impairment loss is measured as the difference between the carrying amount of the financial asset and the present value of estimated future cash flows discounted at the current market rate of return for a similar financial asset. Such impairment losses are not reversed.

1.10 Leases

A lease is classified as a finance lease if it transfers substantially all the risks and rewards incidental to ownership. A lease is classified as an operating lease if it does not transfer substantially all the risks and rewards incidental to ownership.

When a lease includes both land and buildings elements, the entity assesses the classification of each element separately.

Greater Giyani Municipality

(Registration number LIM331)

Audited Annual Financial Statements for the year ended 30 June 2021

Accounting Policies

1.10 Leases (continued)

Finance leases - lessee

Finance leases are recognised as assets and liabilities in the statement of financial position at amounts equal to the fair value of the leased property or, if lower, the present value of the minimum lease payments. The corresponding liability to the lessor is included in the statement of financial position as a finance lease obligation.

The discount rate used in calculating the present value of the minimum lease payments is the interest rate implicit in the lease.

Minimum lease payments are apportioned between the finance charge and reduction of the outstanding liability. The finance charge is allocated to each period during the lease term so as to produce a constant periodic rate of on the remaining balance of the liability.

Any contingent rents are expensed in the period in which they are incurred.

Operating leases - lessee

Operating lease payments are recognised as an expense on a straight-line basis over the lease term. The difference between the amounts recognised as an expense and the contractual payments are recognised as an operating lease asset or liability.

1.11 Inventories

Inventories are initially measured at cost except where inventories are acquired through a non-exchange transaction, then their costs are their fair value as at the date of acquisition.

Subsequently inventories are measured at the lower of cost and net realisable value.

Net realisable value is the estimated selling price in the ordinary course of operations less the estimated costs of completion and the estimated costs necessary to make the sale, exchange or distribution.

Current replacement cost is the cost the municipality incurs to acquire the asset on the reporting date.

The cost of inventories comprises of all costs of purchase.

The cost of inventories is assigned using the weighted average cost formula. The same cost formula is used for all inventories having a similar nature and use to the municipality.

When inventories are sold, the carrying amounts of those inventories are recognised as an expense in the period in which the related revenue is recognised. If there is no related revenue, the expenses are recognised when the goods are distributed, or related services are rendered.

The amount of any write-down of inventories to net realisable value or current replacement cost and all losses of inventories are recognised as an expense in the period the write-down or loss occurs. The amount of any reversal of any write-down of inventories, arising from an increase in net realisable value or current replacement cost, are recognised as a reduction in the amount of inventories recognised as an expense in the period in which the reversal occurs.

1.12 Impairment of cash-generating assets

Cash-generating assets are assets used with the objective of generating a commercial return. Commercial return means that positive cash flows are expected to be significantly higher than the cost of the asset.

Impairment is a loss in the future economic benefits or service potential of an asset, over and above the systematic recognition of the loss of the asset's future economic benefits or service potential through depreciation (amortisation).

Carrying amount is the amount at which an asset is recognised in the statement of financial position after deducting any accumulated depreciation and accumulated impairment losses thereon.

A cash-generating unit is the smallest identifiable group of assets used with the objective of generating a commercial return that generates cash inflows from continuing use that are largely independent of the cash inflows from other assets or groups of assets.

Greater Giyani Municipality

(Registration number LIM331)

Audited Annual Financial Statements for the year ended 30 June 2021

Accounting Policies

1.12 Impairment of cash-generating assets (continued)

Costs of disposal are incremental costs directly attributable to the disposal of an asset, excluding finance costs and income tax expense.

Depreciation (Amortisation) is the systematic allocation of the depreciable amount of an asset over its useful life.

Fair value less costs to sell is the amount obtainable from the sale of an asset in an arm's length transaction between knowledgeable, willing parties, less the costs of disposal.

Recoverable amount of an asset or a cash-generating unit is the higher its fair value less costs to sell and its value in use.

Useful life is either:

- the period of time over which an asset is expected to be used by the municipality; or
- the number of production or similar units expected to be obtained from the asset by the municipality.

Judgements made by management in applying the criteria to designate assets as cash-generating assets or non-cash-generating assets, are as follows:

Identification

When the carrying amount of a cash-generating asset exceeds its recoverable amount, it is impaired.

The municipality assesses at each reporting date whether there is any indication that a cash-generating asset may be impaired. If any such indication exists, the municipality estimates the recoverable amount of the asset.

Value in use

Value in use of a cash-generating asset is the present value of the estimated future cash flows expected to be derived from the continuing use of an asset and from its disposal at the end of its useful life.

When estimating the value in use of an asset, the municipality estimates the future cash inflows and outflows to be derived from continuing use of the asset and from its ultimate disposal and the municipality applies the appropriate discount rate to those future cash flows.

Basis for estimates of future cash flows

In measuring value in use the municipality:

- base cash flow projections on reasonable and supportable assumptions that represent management's best estimate of the range of economic conditions that will exist over the remaining useful life of the asset. Greater weight is given to external evidence;
- base cash flow projections on the most recent approved financial budgets/forecasts, but excludes any estimated future cash inflows or outflows expected to arise from future restructuring's or from improving or enhancing the asset's performance. Projections based on these budgets/forecasts covers a maximum period of five years, unless a longer period can be justified; and
- estimate cash flow projections beyond the period covered by the most recent budgets/forecasts by extrapolating the projections based on the budgets/forecasts using a steady or declining growth rate for subsequent years, unless an increasing rate can be justified. This growth rate does not exceed the long-term average growth rate for the products, industries, or country or countries in which the entity operates, or for the market in which the asset is used, unless a higher rate can be justified.

Greater Giyani Municipality

(Registration number LIM331)

Audited Annual Financial Statements for the year ended 30 June 2021

Accounting Policies

1.12 Impairment of cash-generating assets (continued)

Composition of estimates of future cash flows

Estimates of future cash flows include:

- projections of cash inflows from the continuing use of the asset;
- projections of cash outflows that are necessarily incurred to generate the cash inflows from continuing use of the asset (including cash outflows to prepare the asset for use) and can be directly attributed, or allocated on a reasonable and consistent basis, to the asset; and
- net cash flows, if any, to be received (or paid) for the disposal of the asset at the end of its useful life.

Estimates of future cash flows exclude:

- cash inflows or outflows from financing activities; and
- income tax receipts or payments.

The estimate of net cash flows to be received (or paid) for the disposal of an asset at the end of its useful life is the amount that the municipality expects to obtain from the disposal of the asset in an arm's length transaction between knowledgeable, willing parties, after deducting the estimated costs of disposal.

Discount rate

The discount rate is a pre-tax rate that reflects current market assessments of the time value of money, represented by the current risk-free rate of interest and the risks specific to the asset for which the future cash flow estimates have not been adjusted.

Recognition and measurement (individual asset)

If the recoverable amount of a cash-generating asset is less than its carrying amount, the carrying amount of the asset is reduced to its recoverable amount. This reduction is an impairment loss.

An impairment loss is recognised immediately in surplus or deficit.

Any impairment loss of a revalued cash-generating asset is treated as a revaluation decrease.

When the amount estimated for an impairment loss is greater than the carrying amount of the cash-generating asset to which it relates, the municipality recognises a liability only to the extent that is a requirement in the Standard of GRAP.

After the recognition of an impairment loss, the depreciation (amortisation) charge for the cash-generating asset is adjusted in future periods to allocate the cash-generating asset's revised carrying amount, less its residual value (if any), on a systematic basis over its remaining useful life.

Greater Giyani Municipality

(Registration number LIM331)

Audited Annual Financial Statements for the year ended 30 June 2021

Accounting Policies

1.12 Impairment of cash-generating assets (continued)

Cash-generating units

If there is any indication that an asset may be impaired, the recoverable amount is estimated for the individual asset. If it is not possible to estimate the recoverable amount of the individual asset, the municipality determines the recoverable amount of the cash-generating unit to which the asset belongs (the asset's cash-generating unit).

If an active market exists for the output produced by an asset or group of assets, that asset or group of assets is identified as a cash-generating unit, even if some or all of the output is used internally. If the cash inflows generated by any asset or cash-generating unit are affected by internal transfer pricing, the municipality use management's best estimate of future price(s) that could be achieved in arm's length transactions in estimating:

- the future cash inflows used to determine the asset's or cash-generating unit's value in use; and
- the future cash outflows used to determine the value in use of any other assets or cash-generating units that are affected by the internal transfer pricing.

Cash-generating units are identified consistently from period to period for the same asset or types of assets, unless a change is justified.

The carrying amount of a cash-generating unit is determined on a basis consistent with the way the recoverable amount of the cash-generating unit is determined.

An impairment loss is recognised for a cash-generating unit if the recoverable amount of the unit is less than the carrying amount of the unit. The impairment is allocated to reduce the carrying amount of the cash-generating assets of the unit on a pro rata basis, based on the carrying amount of each asset in the unit. These reductions in carrying amounts are treated as impairment losses on individual assets.

In allocating an impairment loss, the entity does not reduce the carrying amount of an asset below the highest of:

- its fair value less costs to sell (if determinable);
- its value in use (if determinable); and
- zero.

The amount of the impairment loss that would otherwise have been allocated to the asset is allocated pro rata to the other cash-generating assets of the unit.

Where a non-cash-generating asset contributes to a cash-generating unit, a proportion of the carrying amount of that non-cash-generating asset is allocated to the carrying amount of the cash-generating unit prior to estimation of the recoverable amount of the cash-generating unit.

Greater Giyani Municipality

(Registration number LIM331)

Audited Annual Financial Statements for the year ended 30 June 2021

Accounting Policies

1.12 Impairment of cash-generating assets (continued)

Reversal of impairment loss

The municipality assesses at each reporting date whether there is any indication that an impairment loss recognised in prior periods for a cash-generating asset may no longer exist or may have decreased. If any such indication exists, the entity estimates the recoverable amount of that asset.

An impairment loss recognised in prior periods for a cash-generating asset is reversed if there has been a change in the estimates used to determine the asset's recoverable amount since the last impairment loss was recognised. The carrying amount of the asset is increased to its recoverable amount. The increase is a reversal of an impairment loss. The increased carrying amount of an asset attributable to a reversal of an impairment loss does not exceed the carrying amount that would have been determined (net of depreciation or amortisation) had no impairment loss been recognised for the asset in prior periods.

A reversal of an impairment loss for a cash-generating asset is recognised immediately in surplus or deficit.

Any reversal of an impairment loss of a revalued cash-generating asset is treated as a revaluation increase.

After a reversal of an impairment loss is recognised, the depreciation (amortisation) charge for the cash-generating asset is adjusted in future periods to allocate the cash-generating asset's revised carrying amount, less its residual value (if any), on a systematic basis over its remaining useful life.

A reversal of an impairment loss for a cash-generating unit is allocated to the cash-generating assets of the unit pro rata with the carrying amounts of those assets. These increases in carrying amounts are treated as reversals of impairment losses for individual assets. No part of the amount of such a reversal is allocated to a non-cash-generating asset contributing service potential to a cash-generating unit.

In allocating a reversal of an impairment loss for a cash-generating unit, the carrying amount of an asset is not increased above the lower of:

- its recoverable amount (if determinable); and
- the carrying amount that would have been determined (net of amortisation or depreciation) had no impairment loss been recognised for the asset in prior periods.

The amount of the reversal of the impairment loss that would otherwise have been allocated to the asset is allocated pro rata to the other assets of the unit.

Redesignation

The redesignation of assets from a cash-generating asset to a non-cash-generating asset or from a non-cash-generating asset to a cash-generating asset only occur when there is clear evidence that such a redesignation is appropriate.

1.13 Impairment of non-cash-generating assets

Cash-generating assets are assets used with the objective of generating a commercial return. Commercial return means that positive cash flows are expected to be significantly higher than the cost of the asset.

Non-cash-generating assets are assets other than cash-generating assets.

Impairment is a loss in the future economic benefits or service potential of an asset, over and above the systematic recognition of the loss of the asset's future economic benefits or service potential through depreciation (amortisation).

Carrying amount is the amount at which an asset is recognised in the statement of financial position after deducting any accumulated depreciation and accumulated impairment losses thereon.

A cash-generating unit is the smallest identifiable group of assets managed with the objective of generating a commercial return that generates cash inflows from continuing use that are largely independent of the cash inflows from other assets or groups of assets.

Costs of disposal are incremental costs directly attributable to the disposal of an asset, excluding finance costs and income tax expense.

Greater Giyani Municipality

(Registration number LIM331)

Audited Annual Financial Statements for the year ended 30 June 2021

Accounting Policies

1.13 Impairment of non-cash-generating assets (continued)

Depreciation (Amortisation) is the systematic allocation of the depreciable amount of an asset over its useful life.

Fair value less costs to sell is the amount obtainable from the sale of an asset in an arm's length transaction between knowledgeable, willing parties, less the costs of disposal.

Recoverable service amount is the higher of a non-cash-generating asset's fair value less costs to sell and its value in use.

Useful life is either:

- the period of time over which an asset is expected to be used by the municipality; or
- the number of production or similar units expected to be obtained from the asset by the municipality.

Judgements made by management in applying the criteria to designate assets as non-cash-generating assets or cash-generating assets, are as follows:

Value in use

Value in use of non-cash-generating assets is the present value of the non-cash-generating assets remaining service potential.

The present value of the remaining service potential of a non-cash-generating assets is determined using the following approach:

Depreciated replacement cost approach

The present value of the remaining service potential of a non-cash-generating asset is determined as the depreciated replacement cost of the asset. The replacement cost of an asset is the cost to replace the asset's gross service potential. This cost is depreciated to reflect the asset in its used condition. An asset may be replaced either through reproduction (replication) of the existing asset or through replacement of its gross service potential. The depreciated replacement cost is measured as the current reproduction or replacement cost of the asset, whichever is lower, less accumulated depreciation calculated on the basis of such cost, to reflect the already consumed or expired service potential of the asset.

The replacement cost and reproduction cost of an asset is determined on an "optimised" basis. The rationale is that the municipality would not replace or reproduce the asset with a like asset if the asset to be replaced or reproduced is an oversized or overcapacity asset. Oversized assets contain features which are unnecessary for the goods or services the asset provides. Overcapacity assets are assets that have a greater capacity than is necessary to meet the demand for goods or services the asset provides. The determination of the replacement cost or reproduction cost of an asset on an optimised basis thus reflects the service potential required of the asset.

Recognition and measurement

If the recoverable service amount of a non-cash-generating asset is less than its carrying amount, the carrying amount of the asset is reduced to its recoverable service amount. This reduction is an impairment loss.

An impairment loss is recognised immediately in surplus or deficit.

Any impairment loss of a revalued non-cash-generating asset is treated as a revaluation decrease.

When the amount estimated for an impairment loss is greater than the carrying amount of the non-cash-generating asset to which it relates, the municipality recognises a liability only to the extent that is a requirement in the Standards of GRAP.

After the recognition of an impairment loss, the depreciation (amortisation) charge for the non-cash-generating asset is adjusted in future periods to allocate the non-cash-generating asset's revised carrying amount, less its residual value (if any), on a systematic basis over its remaining useful life.

Greater Giyani Municipality

(Registration number LIM331)

Audited Annual Financial Statements for the year ended 30 June 2021

Accounting Policies

1.13 Impairment of non-cash-generating assets (continued)

Reversal of an impairment loss

The municipality assesses at each reporting date whether there is any indication that an impairment loss recognised in prior periods for a non-cash-generating asset may no longer exist or may have decreased. If any such indication exists, the municipality estimates the recoverable service amount of that asset.

An impairment loss recognised in prior periods for a non-cash-generating asset is reversed if there has been a change in the estimates used to determine the asset's recoverable service amount since the last impairment loss was recognised. The carrying amount of the asset is increased to its recoverable service amount. The increase is a reversal of an impairment loss. The increased carrying amount of an asset attributable to a reversal of an impairment loss does not exceed the carrying amount that would have been determined (net of depreciation or amortisation) had no impairment loss been recognised for the asset in prior periods.

A reversal of an impairment loss for a non-cash-generating asset is recognised immediately in surplus or deficit.

Any reversal of an impairment loss of a revalued non-cash-generating asset is treated as a revaluation increase.

After a reversal of an impairment loss is recognised, the depreciation (amortisation) charge for the non-cash-generating asset is adjusted in future periods to allocate the non-cash-generating asset's revised carrying amount, less its residual value (if any), on a systematic basis over its remaining useful life.

Redesignation

The redesignation of assets from a cash-generating asset to a non-cash-generating asset or from a non-cash-generating asset to a cash-generating asset only occur when there is clear evidence that such a redesignation is appropriate.

1.14 Employee benefits

Employee benefits are all forms of consideration given by an entity in exchange for service rendered by employees.

Other long-term employee benefits are employee benefits (other than post-employment benefits and termination benefits) that are not due to be settled within twelve months after the end of the period in which the employees render the related service.

Greater Giyani Municipality

(Registration number LIM331)

Audited Annual Financial Statements for the year ended 30 June 2021

Accounting Policies

1.14 Employee benefits (continued)

Short-term employee benefits

Short-term employee benefits are employee benefits (other than termination benefits) that are due to be settled within twelve months after the end of the period in which the employees render the related service.

Short-term employee benefits include items such as:

- wages, salaries and social security contributions;
- short-term compensated absences (such as paid annual leave and paid sick leave) where the compensation for the absences is due to be settled within twelve months after the end of the reporting period in which the employees render the related employee service;
- bonus, incentive and performance related payments payable within twelve months after the end of the reporting period in which the employees render the related service; and
- non-monetary benefits (for example, medical care, and free or subsidised goods or services such as housing, cars and cellphones) for current employees.

When an employee has rendered service to the entity during a reporting period, the entity recognises the undiscounted amount of short-term employee benefits expected to be paid in exchange for that service:

- as a liability (accrued expense), after deducting any amount already paid. If the amount already paid exceeds the undiscounted amount of the benefits, the entity recognises that excess as an asset (prepaid expense) to the extent that the prepayment will lead to, for example, a reduction in future payments or a cash refund; and
- as an expense, unless another Standard requires or permits the inclusion of the benefits in the cost of an asset.

The expected cost of compensated absences is recognised as an expense as the employees render services that increase their entitlement or, in the case of non-accumulating absences, when the absence occurs. The entity measures the expected cost of accumulating compensated absences as the additional amount that the entity expects to pay as a result of the unused entitlement that has accumulated at the reporting date.

The entity recognises the expected cost of bonus, incentive and performance related payments when the entity has a present legal or constructive obligation to make such payments as a result of past events and a reliable estimate of the obligation can be made. A present obligation exists when the entity has no realistic alternative but to make the payments.

Post-employment benefits

Post-employment benefit plans are formal or informal arrangements under which an entity provides post-employment benefits for one or more employees.

Post-employment benefits: Defined contribution plans

Defined contribution plans are post-employment benefit plans under which an entity pays fixed contributions into a separate entity (a fund) and will have no legal or constructive obligation to pay further contributions if the fund does not hold sufficient assets to pay all employee benefits relating to employee service in the current and prior periods.

When an employee has rendered service to the entity during a reporting period, the entity recognises the contribution payable to a defined contribution plan in exchange for that service:

- as a liability (accrued expense), after deducting any contribution already paid. If the contribution already paid exceeds the contribution due for service before the reporting date, an entity recognises that excess as an asset (prepaid expense) to the extent that the prepayment will lead to, for example, a reduction in future payments or a cash refund; and
- as an expense, unless another Standard requires or permits the inclusion of the contribution in the cost of an asset.

Greater Giyani Municipality

(Registration number LIM331)

Audited Annual Financial Statements for the year ended 30 June 2021

Accounting Policies

1.14 Employee benefits (continued)

Post-employment benefits: Defined benefit plans

Defined benefit plans are post-employment benefit plans other than defined contribution plans.

Actuarial gains and losses comprise experience adjustments (the effects of differences between the previous actuarial assumptions and what has actually occurred) and the effects of changes in actuarial assumptions. In measuring its defined benefit liability the entity recognises actuarial gains and losses in surplus or deficit in the reporting period in which they occur.

Assets held by a long-term employee benefit fund are assets (other than non-transferable financial instruments issued by the reporting entity) that are held by an entity (a fund) that is legally separate from the reporting entity and exists solely to pay or fund employee benefits and are available to be used only to pay or fund employee benefits, are not available to the reporting entity's own creditors (even in liquidation), and cannot be returned to the reporting entity, unless either:

- the remaining assets of the fund are sufficient to meet all the related employee benefit obligations of the plan or the reporting entity; or
- the assets are returned to the reporting entity to reimburse it for employee benefits already paid.

Current service cost is the increase in the present value of the defined benefit obligation resulting from employee service in the current period.

Interest cost is the increase during a period in the present value of a defined benefit obligation which arises because the benefits are one period closer to settlement.

Past service cost is the change in the present value of the defined benefit obligation for employee service in prior periods, resulting in the current period from the introduction of, or changes to, post-employment benefits or other long-term employee benefits. Past service cost may be either positive (when benefits are introduced or changed so that the present value of the defined benefit obligation increases) or negative (when existing benefits are changed so that the present value of the defined benefit obligation decreases). In measuring its defined benefit liability the entity recognises past service cost as an expense in the reporting period in which the plan is amended.

Plan assets comprise assets held by a long-term employee benefit fund and qualifying insurance policies.

The present value of a defined benefit obligation is the present value, without deducting any plan assets, of expected future payments required to settle the obligation resulting from employee service in the current and prior periods.

The return on plan assets is interest, dividends or similar distributions and other revenue derived from the plan assets, together with realised and unrealised gains or losses on the plan assets, less any costs of administering the plan (other than those included in the actuarial assumptions used to measure the defined benefit obligation) and less any tax payable by the plan itself.

The entity account not only for its legal obligation under the formal terms of a defined benefit plan, but also for any constructive obligation that arises from the entity's informal practices. Informal practices give rise to a constructive obligation where the entity has no realistic alternative but to pay employee benefits. An example of a constructive obligation is where a change in the entity's informal practices would cause unacceptable damage to its relationship with employees.

The amount recognised as a defined benefit liability is the net total of the following amounts:

- the present value of the defined benefit obligation at the reporting date;
- minus the fair value at the reporting date of plan assets (if any) out of which the obligations are to be settled directly;
- plus any liability that may arise as a result of a minimum funding requirement

The amount determined as a defined benefit liability may be negative (an asset). The entity measures the resulting asset at the lower of:

- the amount determined above; and
- the present value of any economic benefits available in the form of refunds from the plan or reductions in future contributions to the plan. The present value of these economic benefits is determined using a discount rate which reflects the time value of money.

Any adjustments arising from the limit above is recognised in surplus or deficit.

Greater Giyani Municipality

(Registration number LIM331)

Audited Annual Financial Statements for the year ended 30 June 2021

Accounting Policies

1.14 Employee benefits (continued)

The entity determines the present value of defined benefit obligations and the fair value of any plan assets with sufficient regularity such that the amounts recognised in the audited annual financial statements do not differ materially from the amounts that would be determined at the reporting date.

The entity recognises the net total of the following amounts in surplus or deficit, except to the extent that another Standard requires or permits their inclusion in the cost of an asset:

- current service cost;
- interest cost;
- the expected return on any plan assets and on any reimbursement rights;
- actuarial gains and losses;
- past service cost;
- the effect of any curtailments or settlements; and
- the effect of applying the limit on a defined benefit asset (negative defined benefit liability).

The entity uses the Projected Unit Credit Method to determine the present value of its defined benefit obligations and the related current service cost and, where applicable, past service cost. The Projected Unit Credit Method (sometimes known as the accrued benefit method pro-rated on service or as the benefit/years of service method) sees each period of service as giving rise to an additional unit of benefit entitlement and measures each unit separately to build up the final obligation.

In determining the present value of its defined benefit obligations and the related current service cost and, where applicable, past service cost, an entity shall attribute benefit to periods of service under the plan's benefit formula. However, if an employee's service in later years will lead to a materially higher level of benefit than in earlier years, an entity shall attribute benefit on a straight-line basis from:

- the date when service by the employee first leads to benefits under the plan (whether or not the benefits are conditional on further service); until
- the date when further service by the employee will lead to no material amount of further benefits under the plan, other than from further salary increases.

Actuarial valuations are conducted on an annual basis by independent actuaries separately for each plan. The results of the valuation are updated for any material transactions and other material changes in circumstances (including changes in market prices and interest rates) up to the reporting date.

Actuarial assumptions

Actuarial assumptions are unbiased and mutually compatible.

Financial assumptions are based on market expectations, at the reporting date, for the period over which the obligations are to be settled.

The rate used to discount post-employment benefit obligations (both funded and unfunded) reflect the time value of money. The currency and term of the financial instrument selected to reflect the time value of money is consistent with the currency and estimated term of the post-employment benefit obligations.

Post-employment benefit obligations are measured on a basis that reflects:

- estimated future salary increases;
- the benefits set out in the terms of the plan (or resulting from any constructive obligation that goes beyond those terms) at the reporting date; and
- estimated future changes in the level of any state benefits that affect the benefits payable under a defined benefit plan, if, and only if, either:
 - those changes were enacted before the reporting date; or
 - past history, or other reliable evidence, indicates that those state benefits will change in some predictable manner, for example, in line with future changes in general price levels or general salary levels.

Assumptions about medical costs take account of estimated future changes in the cost of medical services, resulting from both inflation and specific changes in medical costs.

Greater Giyani Municipality

(Registration number LIM331)

Audited Annual Financial Statements for the year ended 30 June 2021

Accounting Policies

1.14 Employee benefits (continued)

Other post retirement obligations

The municipality provides post-retirement health care benefits, housing subsidies and gratuities upon retirement to some retirees.

The entitlement to post-retirement health care benefits is based on the employee remaining in service up to retirement age and the completion of a minimum service period. The expected costs of these benefits are accrued over the period of employment. Independent qualified actuaries carry out valuations of these obligations. The municipality also provides a gratuity and housing subsidy on retirement to certain employees. An annual charge to income is made to cover both these liabilities.

The amount recognised as a liability for other long-term employee benefits is the net total of the following amounts:

- the present value of the defined benefit obligation at the reporting date;
- minus the fair value at the reporting date of plan assets (if any) out of which the obligations are to be settled directly.

Termination benefits

The entity recognises termination benefits as a liability and an expense when the entity is demonstrably committed to either:

- terminate the employment of an employee or group of employees before the normal retirement date; or
- provide termination benefits as a result of an offer made in order to encourage voluntary redundancy.

The entity is demonstrably committed to a termination when the entity has a detailed formal plan for the termination and is without realistic possibility of withdrawal. The detailed plan includes [as a minimum]:

- the location, function, and approximate number of employees whose services are to be terminated;
- the termination benefits for each job classification or function; and
- the time at which the plan will be implemented.

Implementation begins as soon as possible and the period of time to complete implementation is such that material changes to the plan are not likely.

1.15 Provisions and contingencies

Provisions are recognised when:

- the municipality has a present obligation as a result of a past event;
- it is probable that an outflow of resources embodying economic benefits or service potential will be required to settle the obligation; and
- a reliable estimate can be made of the obligation.

The amount of a provision is the best estimate of the expenditure expected to be required to settle the present obligation at the reporting date.

A provision is used only for expenditures for which the provision was originally recognised.

Provision for rehabilitation of landfill site is determined by the expert and it is initially and subsequently recognised at cost.

Contingent assets and contingent liabilities are not recognised. Contingencies are disclosed in note 50.

Provision for rehabilitation for dumping site

Provision for rehabilitation of landfill site is determined by the expert and it is initially and subsequently recognised at cost.

Changes in the measurement of an existing decommissioning, restoration and similar liability that result from changes in the estimated timing or amount of the outflow of resources embodying economic benefits or service potential required to settle the obligation, or a change in the discount rate, is accounted for as follows:

The periodic unwinding of the discount is recognised in surplus or deficit as a finance cost as it occurs.

1.16 Commitments

Items are classified as commitments when an entity has committed itself to future transactions that will normally result in the outflow of cash.

Greater Giyani Municipality

(Registration number LIM331)

Audited Annual Financial Statements for the year ended 30 June 2021

Accounting Policies

1.16 Commitments (continued)

Disclosures are required in respect of unrecognised contractual commitments.

Commitments for which disclosure is necessary to achieve a fair presentation should be disclosed in a note to the financial statements, if both the following criteria are met:

- Contracts should be non-cancellable or only cancellable at significant cost (for example, contracts for computer or building maintenance services); and
- Contracts should relate to something other than the routine, steady, state business of the entity – therefore salary commitments relating to employment contracts or social security benefit commitments are excluded.

1.17 Revenue from exchange transactions

Revenue is the gross inflow of economic benefits or service potential during the reporting period when those inflows result in an increase in net assets, other than increases relating to contributions from owners.

An exchange transaction is one in which the municipality receives assets or services, or has liabilities extinguished, and directly gives approximately equal value (primarily in the form of goods, services or use of assets) to the other party in exchange.

Fair value is the amount for which an asset could be exchanged, or a liability settled, between knowledgeable, willing parties in an arm's length transaction.

Measurement

Revenue is measured at the fair value of the consideration received or receivable, net of trade discounts and volume rebates.

Sale of goods

Revenue from the sale of goods is recognised when all the following conditions have been satisfied:

- the municipality has transferred to the purchaser the significant risks and rewards of ownership of the goods;
- the municipality retains neither continuing managerial involvement to the degree usually associated with ownership nor effective control over the goods sold;
- the amount of revenue can be measured reliably;
- it is probable that the economic benefits or service potential associated with the transaction will flow to the municipality; and
- the costs incurred or to be incurred in respect of the transaction can be measured reliably.

Rendering of services

When the outcome of a transaction involving the rendering of services can be estimated reliably, revenue associated with the transaction is recognised by reference to the stage of completion of the transaction at the reporting date. The outcome of a transaction can be estimated reliably when all the following conditions are satisfied:

- the amount of revenue can be measured reliably;
- it is probable that the economic benefits or service potential associated with the transaction will flow to the municipality;
- the stage of completion of the transaction at the reporting date can be measured reliably; and
- the costs incurred for the transaction and the costs to complete the transaction can be measured reliably.

Interest

Revenue arising from the use by others of entity assets yielding interest, royalties and dividends or similar distributions is recognised when:

- It is probable that the economic benefits or service potential associated with the transaction will flow to the municipality, and
- The amount of the revenue can be measured reliably.

Interest is recognised using the effective interest rate method for financial instruments, and using the nominal interest rate method for statutory receivables. Interest levied on transactions arising from exchange or non-exchange transactions is classified based on the nature of the underlying transaction.

Greater Giyani Municipality

(Registration number LIM331)

Audited Annual Financial Statements for the year ended 30 June 2021

Accounting Policies

1.18 Revenue from non-exchange transactions

Revenue comprises gross inflows of economic benefits or service potential received and receivable by a municipality, which represents an increase in net assets, other than increases relating to contributions from owners.

Exchange transactions are transactions in which one entity receives assets or services, or has liabilities extinguished, and directly gives approximately equal value (primarily in the form of cash, goods, services, or use of assets) to another entity in exchange.

Fines are economic benefits or service potential received or receivable by entities, as determined by a court or other law enforcement body, as a consequence of the breach of laws or regulations.

Non-exchange transactions are transactions that are not exchange transactions. In a non-exchange transaction, a municipality either receives value from another municipality without directly giving approximately equal value in exchange, or gives value to another municipality without directly receiving approximately equal value in exchange.

The taxable event is the event that the government, legislature or other authority has determined will be subject to taxation.

Taxes are economic benefits or service potential compulsorily paid or payable to entities, in accordance with laws and or regulations, established to provide revenue to government. Taxes do not include fines or other penalties imposed for breaches of the law.

Transfers are inflows of future economic benefits or service potential from non-exchange transactions, other than taxes.

Recognition

An inflow of resources from a non-exchange transaction recognised as an asset is recognised as revenue, except to the extent that a liability is also recognised in respect of the same inflow.

As the municipality satisfies a present obligation recognised as a liability in respect of an inflow of resources from a non-exchange transaction recognised as an asset, it reduces the carrying amount of the liability recognised and recognises an amount of revenue equal to that reduction.

Measurement

Revenue from a non-exchange transaction is measured at the amount of the increase in net assets recognised by the municipality.

When, as a result of a non-exchange transaction, the municipality recognises an asset, it also recognises revenue equivalent to the amount of the asset measured at its fair value as at the date of acquisition, unless it is also required to recognise a liability. Where a liability is required to be recognised it will be measured as the best estimate of the amount required to settle the obligation at the reporting date, and the amount of the increase in net assets, if any, recognised as revenue. When a liability is subsequently reduced, because the taxable event occurs or a condition is satisfied, the amount of the reduction in the liability is recognised as revenue.

Taxes

Resources arising from taxes satisfy the definition of an asset when the municipality controls the resources as a result of a past event (the taxable event) and expects to receive future economic benefits or service potential from those resources. Resources arising from taxes satisfy the criteria for recognition as an asset when it is probable that the inflow of resources will occur and their fair value can be reliably measured. The degree of probability attached to the inflow of resources is determined on the basis of evidence available at the time of initial recognition, which includes, but is not limited to, disclosure of the taxable event by the taxpayer.

The taxable event for value added tax is the undertaking of taxable activity during the taxation period by the taxpayer.

Taxation revenue is determined at a gross amount. It is not reduced for expenses paid through the tax system.

Greater Giyani Municipality

(Registration number LIM331)

Audited Annual Financial Statements for the year ended 30 June 2021

Accounting Policies

1.18 Revenue from non-exchange transactions (continued)

Transfers

Apart from Services in kind, which are not recognised, the municipality recognises an asset in respect of transfers when the transferred resources meet the definition of an asset and satisfy the criteria for recognition as an asset.

The municipality recognises an asset in respect of transfers when the transferred resources meet the definition of an asset and satisfy the criteria for recognition as an asset.

Transferred assets are measured at their fair value as at the date of acquisition.

Fines

Fines are recognised as revenue when the receivable meets the definition of an asset and satisfies the criteria for recognition as an asset.

Assets arising from fines are measured at the best estimate of the inflow of resources to the municipality.

Where the municipality collects fines in the capacity of an agent, the fine will not be revenue of the collecting entity.

Fines are recognised when traffic fines are issued or when the date to appear in court per traffic fine arrive or on cash received by municipality

Gifts and donations, including goods in-kind

Gifts and donations, including goods in kind, are recognised as assets and revenue when it is probable that the future economic benefits or service potential will flow to the municipality and the fair value of the assets can be measured reliably.

1.19 Investment income

Investment income is recognised on a time-proportion basis using the effective interest method.

1.20 Comparative figures

Where necessary, comparative figures have been reclassified to conform to changes in presentation in the current year. When the presentation or classification of items in the annual financial statements is amended, prior period comparative amounts are restated. The nature and reason for the reclassification is disclosed.

Where accounting errors have been identified in the current year, the correction is made retrospectively as far as is practicable, and the prior year comparatives are restated accordingly.

Where there has been a change in accounting policy in the current year, the adjustment is made retrospectively as far as is practicable, and the prior year comparatives are restated accordingly.

1.21 Unauthorised expenditure

Unauthorised expenditure means:

- overspending of a vote or a main division within a vote; and
- expenditure not in accordance with the purpose of a vote or, in the case of a main division, not in accordance with the purpose of the main division.

All expenditure relating to unauthorised expenditure is recognised as an expense in the statement of financial performance in the year that the expenditure was incurred. The expenditure is classified in accordance with the nature of the expense, and where recovered, it is subsequently accounted for as revenue in the statement of financial performance.

1.22 Fruitless and wasteful expenditure

Fruitless expenditure means expenditure which was made in vain and would have been avoided had reasonable care been exercised.

Greater Giyani Municipality

(Registration number LIM331)

Audited Annual Financial Statements for the year ended 30 June 2021

Accounting Policies

1.22 Fruitless and wasteful expenditure (continued)

All expenditure relating to fruitless and wasteful expenditure is recognised as an expense in the statement of financial performance in the year that the expenditure was incurred. The expenditure is classified in accordance with the nature of the expense, and where recovered, it is subsequently accounted for as revenue in the statement of financial performance.

1.23 Irregular expenditure

Irregular expenditure that was incurred and identified during the current financial and which was written off before year end and/or before finalisation of the financial statements must also be recorded appropriately in the irregular expenditure register. In such an instance, no further action is also required with the exception of updating the note to the financial statements.

Irregular expenditure that was incurred and identified during the current financial year and for which writing off is being awaited at year end must be recorded in the irregular expenditure register. No further action is required with the exception of updating the note to the financial statements.

Where irregular expenditure was incurred in the previous financial year and is only written off in the following financial year, the register and the disclosure note to the financial statements must be updated with the amount written off.

Irregular expenditure that was incurred and identified during the current financial year and which was not wrote off by the National Treasury or the relevant authority must be recorded appropriately in the irregular expenditure register. If liability for the irregular expenditure can be attributed to a person, a debt account must be created if such a person is liable in law. Immediate steps must thereafter be taken to recover the amount from the person concerned. If recovery is not possible, the accounting officer or accounting authority may write off the amount as debt impairment and disclose such in the relevant note to the financial statements. The irregular expenditure register must also be updated accordingly. If the irregular expenditure has not been written off and no person is liable in law, the expenditure related thereto must remain against the relevant programme/expenditure item, be disclosed as such in the note to the financial statements and updated accordingly in the irregular expenditure register.

Irregular expenditure is expenditure that is contrary to the Municipal Finance Management Act (Act No.56 of 2003), the Municipal Systems Act (Act No.32 of 2000), and the Public Office Bearers Act (Act No. 20 of 1998) or is in contravention of the economic entity's supply chain management policy. Irregular expenditure excludes unauthorised expenditure. Irregular expenditure is accounted for as expenditure in the Statement of Financial Performance and where recovered, it is subsequently accounted for as revenue in the Statement of Financial Performance.

1.24 Budget information

General purpose financial reporting by municipality shall provide information on whether resources were obtained and used in accordance with the legally adopted budget.

The approved budget is prepared on a modified cash basis and presented by economic classification linked to performance outcome objectives.

The approved budget covers the fiscal period from 2020/07/01 to 2021/06/30.

The budget for the economic entity includes all the entities approved budgets under its control.

Comparative information is not required.

1.25 Related parties

A related party is a person or an entity with the ability to control or jointly control the other party, or exercise significant influence over the other party, or vice versa, or an entity that is subject to common control, or joint control.

Control is the power to govern the financial and operating policies of an entity so as to obtain benefits from its activities.

Joint control is the agreed sharing of control over an activity by a binding arrangement, and exists only when the strategic financial and operating decisions relating to the activity require the unanimous consent of the parties sharing control (the venturers).

Related party transaction is a transfer of resources, services or obligations between the reporting entity and a related party, regardless of whether a price is charged.

Greater Giyani Municipality

(Registration number LIM331)

Audited Annual Financial Statements for the year ended 30 June 2021

Accounting Policies

1.25 Related parties (continued)

Significant influence is the power to participate in the financial and operating policy decisions of an entity, but is not control over those policies.

Management are those persons responsible for planning, directing and controlling the activities of the municipality, including those charged with the governance of the municipality in accordance with legislation, in instances where they are required to perform such functions.

Close members of the family of a person are those family members who may be expected to influence, or be influenced by that person in their dealings with the municipality.

The municipality is exempt from disclosure requirements in relation to related party transactions if that transaction occurs within normal supplier and/or client/recipient relationships on terms and conditions no more or less favourable than those which it is reasonable to expect the municipality to have adopted if dealing with that individual entity or person in the same circumstances and terms and conditions are within the normal operating parameters established by that reporting entity's legal mandate.

Where the municipality is exempt from the disclosures in accordance with the above, the municipality discloses narrative information about the nature of the transactions and the related outstanding balances, to enable users of the entity's financial statements to understand the effect of related party transactions on its audited annual financial statements.

1.26 Events after reporting date

Events after reporting date are those events, both favourable and unfavourable, that occur between the reporting date and the date when the financial statements are authorised for issue. Two types of events can be identified:

- those that provide evidence of conditions that existed at the reporting date (adjusting events after the reporting date); and
- those that are indicative of conditions that arose after the reporting date (non-adjusting events after the reporting date).

The municipality will adjust the amount recognised in the financial statements to reflect adjusting events after the reporting date once the event occurred.

The municipality will disclose the nature of the event and an estimate of its financial effect or a statement that such estimate cannot be made in respect of all material non-adjusting events, where non-disclosure could influence the economic decisions of users taken on the basis of the financial statements.

1.27 Value Added Tax

Revenue, expenses and assets are recognised net of amounts of Value Added Tax. The net amount of Value Added Tax recoverable from or payable to SARS is included as part of receivables or payables in the Statement of Financial Position.

The municipality is a registered VAT vendor and account for VAT on a payment basis

The following rates are applicable:

2. New standards and interpretations

2.1 Standards and interpretations issued, but not yet effective

The municipality has not applied the following standards and interpretations, which have been published and are mandatory for the municipality's accounting periods beginning on or after 01 July 2021 or later periods:

GRAP 109: Accounting by Principals and Agents

The objective of this Standard is to outline principles to be used by an entity to assess whether it is party to a principal-agent arrangement, and whether it is a principal or an agent in undertaking transactions in terms of such an arrangement. The Standard does not introduce new recognition or measurement requirements for revenue, expenses, assets and/or liabilities that result from principal-agent arrangements. The Standard does however provide guidance on whether revenue, expenses, assets and/or liabilities should be recognised by an agent or a principal, as well as prescribe what information should be disclosed when an entity is a principal or an agent.

It furthermore covers Definitions, Identifying whether an entity is a principal or agent, Accounting by a principal or agent, Presentation, Disclosure, Transitional provisions and Effective date.

It is unlikely that the standard will have a material impact on the municipality's audited annual financial statements.

GRAP 108: Statutory Receivables

The objective of this Standard is: to prescribe accounting requirements for the recognition, measurement, presentation and disclosure of statutory receivables.

It furthermore covers: Definitions, recognition, derecognition, measurement, presentation and disclosure, transitional provisions, as well as the effective date.

The municipality expects to adopt the standard for the first time when the Minister sets the effective date for the standard.

It is unlikely that the standard will have a material impact on the municipality's audited annual financial statements.

GRAP 20: Related parties

The objective of this standard is to ensure that a reporting entity's audited annual financial statements contain the disclosures necessary to draw attention to the possibility that its financial position and surplus or deficit may have been affected by the existence of related parties and by transactions and outstanding balances with such parties.

An entity that prepares and presents financial statements under the accrual basis of accounting (in this standard referred to as the reporting entity) shall apply this standard in:

- identifying related party relationships and transactions;
- identifying outstanding balances, including commitments, between an entity and its related parties;
- identifying the circumstances in which disclosure of the items in (a) and (b) is required; and
- determining the disclosures to be made about those items.

This standard requires disclosure of related party relationships, transactions and outstanding balances, including commitments, in the consolidated and separate financial statements of the reporting entity in accordance with the Standard of GRAP on Consolidated and Separate Financial Statements. This standard also applies to individual audited annual financial statements.

Disclosure of related party transactions, outstanding balances, including commitments, and relationships with related parties may affect users' assessments of the financial position and performance of the reporting entity and its ability to deliver agreed services, including assessments of the risks and opportunities facing the entity. This disclosure also ensures that the reporting entity is transparent about its dealings with related parties.

The standard states that a related party is a person or an entity with the ability to control or jointly control the other party, or exercise significant influence over the other party, or vice versa, or an entity that is subject to common control, or joint control. As a minimum, the following are regarded as related parties of the reporting entity:

Greater Giyani Municipality

(Registration number LIM331)

Audited Annual Financial Statements for the year ended 30 June 2021

Notes to the Audited Annual Financial Statements

2. New standards and interpretations (continued)

- A person or a close member of that person's family is related to the reporting entity if that person:
 - has control or joint control over the reporting entity;
 - has significant influence over the reporting entity;
 - is a member of the management of the entity or its controlling entity.
- An entity is related to the reporting entity if any of the following conditions apply:
 - the entity is a member of the same economic entity (which means that each controlling entity, controlled entity and fellow controlled entity is related to the others);
 - one entity is an associate or joint venture of the other entity (or an associate or joint venture of a member of an economic entity of which the other entity is a member);
 - both entities are joint ventures of the same third party;
 - one entity is a joint venture of a third entity and the other entity is an associate of the third entity;
 - the entity is a post-employment benefit plan for the benefit of employees of either the entity or an entity related to the entity. If the reporting entity is itself such a plan, the sponsoring employers are related to the entity;
 - the entity is controlled or jointly controlled by a person identified in (a); and
 - a person identified in (a)(i) has significant influence over that entity or is a member of the management of that entity (or its controlling entity).

The standard furthermore states that related party transaction is a transfer of resources, services or obligations between the reporting entity and a related party, regardless of whether a price is charged.

The standard elaborates on the definitions and identification of:

- Close member of the family of a person;
- Management;
- Related parties;
- Remuneration; and
- Significant influence

The standard sets out the requirements, inter alia, for the disclosure of:

- Control;
- Related party transactions; and
- Remuneration of management

The effective date of the standard is for years beginning on or after 01 April 2021.

The municipality expects to adopt the standard for the first time in the 2021/2021 audited annual financial statements.

It is unlikely that the standard will have a material impact on the municipality's audited annual financial statements.

2.2 Standards and interpretations not yet effective or relevant

The following standards and interpretations have been published and are mandatory for the municipality's accounting periods beginning on or after 01 July 2021 or later periods but are not relevant to its operations:

GRAP 104 (amended): Financial Instruments

Following the global financial crisis, a number of concerns were raised about the accounting for financial instruments. This included that (a) information on credit losses and defaults on financial assets was received too late to enable proper decision-making, (b) using fair value in certain instances was inappropriate, and (c) some of the existing accounting requirements were seen as too rules based. As a result, the International Accounting Standards Board® amended its existing Standards to deal with these issues. The IASB issued IFRS® Standard on Financial Instruments (IFRS 9) in 2009 to address many of the concerns raised. Revisions were also made to IAS® on Financial Instruments: Presentation and the IFRS Standard® on Financial Instruments: Disclosures. The IPSASB issued revised International Public Sector Accounting Standards in June 2018 so as to align them with the equivalent IFRS Standards.

The revisions better align the Standards of GRAP with recent international developments. The amendments result in better information available to make decisions about financial assets and their recoverability, and more transparent information on financial liabilities.

The most significant changes to the Standard affect:

- Financial guarantee contracts issued

Greater Giyani Municipality

(Registration number LIM331)

Audited Annual Financial Statements for the year ended 30 June 2021

Notes to the Audited Annual Financial Statements

2. New standards and interpretations (continued)

- Loan commitments issued
- Classification of financial assets
- Amortised cost of financial assets
- Impairment of financial assets
- Disclosures

The effective date of the is not yet set by the Minister of Finance.

The municipality does not envisage the adoption of the until such time as it becomes applicable to the municipality's operations.

Guideline: Guideline on Accounting for Landfill Sites

The objective of this guideline: The Constitution of South Africa, 1996 (Act No. 108 of 1996) (the constitution), gives local government the executive authority over the functions of cleaning, refuse removal, refuse dumps and solid waste disposal. Even though waste disposal activities are mainly undertaken by municipalities, other public sector entities may also be involved in these activities from time to time. Concerns were raised about the inconsistent accounting practices for landfill sites and the related rehabilitation provision where entities undertake waste disposal activities. The objective of the Guideline is therefore to provide guidance to entities that manage and operate landfill sites. The guidance will improve comparability and provide the necessary information to the users of the financial statements to hold entities accountable and for decision making. The principles from the relevant Standards of GRAP are applied in accounting for the landfill site and the related rehabilitation provision. Where appropriate, the Guideline also illustrates the accounting for the land in a landfill, the landfill site asset and the related rehabilitation provision.

It covers: Overview of the legislative requirements that govern landfill sites, Accounting for land, Accounting for the landfill site asset, Accounting for the provision for rehabilitation, Closure, End-use and monitoring, Other considerations, and Annexures with Terminology & References to pronouncements used in the Guideline.

The effective date of the guideline is for years beginning on or after 01 April 2009.

The municipality does not envisage the adoption of the guideline until such time as it becomes applicable to the municipality's operations.

3. Investment property (continued)

Contractual obligations to purchase, construct or develop investment property or for repairs, maintenance or enhancements is as follows:

In the exceptional cases when the municipality has to measure investment property using the cost model in the Standard of GRAP on Property, Plant and Equipment when the municipality subsequently uses the cost model (when fair value of investment property cannot be reliably determined), disclose the following:

- a description of the investment property,
- an explanation of why fair value cannot be determined reliably,
- if possible, the range of estimates within which fair value is highly likely to lie, and
- on disposal of investment property not carried at fair value:
 - the fact that the entity has disposed of investment property not carried at fair value,
 - the carrying amount of that investment property at the time of sale, and
 - the amount of gain or loss recognised.

4. Property, plant and equipment (continued)

Halted projects

Carrying value of property, plant and equipment where construction or development has been halted either during the current or previous reporting period(s), including reasons and any impairment losses recognised in relation to these assets:

A. Development of Giyani section E sports centre	25 463 079	25 463 079
B. Access road to tribal offices	2 982 099	2 982 099
C. Ndhambi Taxi rank	591 840	591 840
D. Refurbishment of Giyani Stadium	1 800 822	1 800 822
E. Refurbishment of Sporting Facilities (Gawula)	4 238 167	4 238 167
	35 076 007	35 076 007

Reasons for halting construction or development

A. No construction progress due to budget constraint. Will be planned for construction in 2022/23. Involved with litigation.

B. Consultant was appointed for designs, the project was earmarked for MIG, COGTA no longer funding and the project to be withdrawn.

C. Project on hold due to budget constrain. MIG is fully committed with other projects. The project is planned for implementation during FY 2021/22.

D. The project came to halt due to non-recruitment of local labourers and community unrest which led the project to be on re-assessment, the municipality has since engaged the ward councillor, process of redesign are underway in order to complete the halted project

E. The project has exhausted the MIG funding due to other scope of work which were not registered on MIG Project, as a result the project was put on hold and to be continued once the funds become available.

A register containing the information required by section 63 of the Municipal Finance Management Act is available for inspection at the registered office of the municipality.

Notes to the Audited Annual Financial Statements

Figures in Rand	2021	2020
7. Other financial assets		
VBS Investments	159 262 692	159 262 692
Impairments	(148 534 882)	(159 262 692)
	-	-
Total other financial assets	10 727 810	-

Impairment is provided for investment in VBS as per National Treasury communication in 2018 financial year due to the bank being put under curatorship and the possibility that the capital invested might be irrecoverable.

Subsequent to the payment of R10 727 810 during the month of February 2022 through the bank liquidator, the status has since changed.

National Treasury has commissioned investigation into the transactions and the council has implemented consequence management.

Figures in Rand 2021 2020

8. Employee benefit obligations

Defined benefit plan

The effective date of the valuation is 30 June 2021 (the "Valuation Date 30 June 2021").

The valuation considers all employees, retirees and their dependents whose participation in the health care arrangements entitles them to a post-employment medical aid subsidy. The post-employment health care liability is not a funded arrangement, i.e. no separate assets have been set aside to meet this liability

Eligible employees will receive a post-employment subsidy of 60% of the contribution payable should they be a member of a medical scheme at retirement. All subsidies are subject to a maximum of R 4 773.12 for the year ending 30 June 2021. The maximum subsidy amount has been assumed to increase in the future at 6.25% of salary inflation.

Table below shows the development of the accrued liability over the current period, and projects the Municipality's Unfunded Accrued Liability and periodic costs over the two-year period following the Valuation Date.

Past year and future projected liability

	Year ending 30/06/2018	Year ending 30/06/2019	Year ending 30/06/2020	Year ending 30/06/2021	Year ending 30/06/2022
Opening accrued liability	17 131 057	16 504 209	18 884 884	14 421 000	16 755 000
Current service cost	1 037 383	928 478	1 233 262	832 000	1 164 000
Interest cost	1 738 491	1 633 917	2 020 683	1 639 000	1 798 000
Actuarial loss/(gain)	(3 402 722)	(181 720)	(7 717 829)	(137 000)	-
Closing accrued liability	16 504 209	18 884 884	14 421 000	16 755 000	19 717 000

Notes

- These projections assume that the Municipality's health care arrangements and subsidy policy will remain as outlined above, and that all the actuarial assumptions made are borne out in practice. In addition, it is assumed that no contributions are made by the Municipality towards prefunding its liability via an off-balance sheet vehicle.
- Contributions or benefits paid refer to medical scheme contributions made by the Municipality with respect to its subsidy of current continuation members.
- There are no Past Service Costs, Curtailments or Settlements to reflect.

Key Assumptions

Discount rate	10,73%	11,37%
Health care cost inflation rate	7,20%	7,28%
Maximum subsidy inflation rate	5,03%	5,09%
Average retirement age	62	63

Long service award

The Municipality offers employees Long service award for every five years of service completed, from ten years of service to 45 years of service.

The salaries used in the valuation include an assumed increase on 1 July 2021 of 4.5% as per the SALGBC Circular No.: 23/2021. The next salary increase was assumed to take place on 1 July 2022.

The accrued liabilities and the plan assets for the current period and the previous four periods.

Liability History	30 June 2018	30 June 2019	30 June 2020	30 June 2021	30 June 2022
Opening accrued balance	5 435 121	6 384 849	4 891 500	5 434 000	5 891 000
Current service cost	498 442	517 458	466 133	546 000	623 000
Interest cost	431 940	437 514	365 230	372 000	518 000
Payment made during the year	(457 062)	(2 311 411)	(321 080)	(669 000)	(623 000)

Intermunicipal account - Mopani District Municipality - An amount of R 23 369 210 for the year ended 2020/2021 financial year includes an amount of R 19 951 048 due to the principal (Greater Giyani Municipality) and an amount R 3 418 162 which relates to transaction held on behalf of the principal (Mopani District Municipality).

Intermunicipal account - Mopani District Municipality - An amount of R 20 358 747 for the year ended 2019/2020 financial year includes an amount of R 19 100 408 due to the principal (Greater Giyani Municipality) and an amount R 1 258 339 which relates to transaction held on behalf of the principal (Mopani District Municipality).

Please refer to Note 51 Accounting for principal and agency - for details of transactions and nature of the agreement.

Staff receivables of R 6 372 relate to the overpayment of salaries to the councilors. The amount is supposed to be paid back to the Municipality by the councilors. This is as per the council resolution taken by the Greater Giyani Municipal Council.

Sundry debtors of R 3 596 581 relates to sale of stands through an auction during 2009. The balance in this attorneys trust account is unknown. Due to the dispute with the auctioneer, the outstanding amount was never paid to the Municipality and as a result, it was provided for in full based on the credit control policy.

15. Finance lease obligation

Minimum lease payments due

- within one year	-	511 880
	-	511 880
less: future finance charges	-	(31 714)
Present value of minimum lease payments	-	480 166

Present value of minimum lease payments due

- within one year	-	480 166
-------------------	---	---------

It is municipality policy to lease computers under finance leases.

The average lease term is three years and the average effective borrowing rate was 19.5%.

Interest rates are fixed at the contract date. All leases have fixed repayments and no arrangements have been entered into for contingent rent.

The municipality's obligations under finance leases are secured by the lessor's charge over the leased assets. Refer note .

At the end of the finance lease contract, ownership of the leased assets will be retained by the municipality.

16. Unspent conditional grants and receipts

Unspent conditional grants and receipts comprises of:

Movement during the year

Balance at the beginning of the year	-	2 961 529
Additions during the year	88 700 000	60 688 000
Income recognition during the year	(88 700 000)	(63 649 529)
	-	-

The nature and extent of government grants recognised in the audited annual financial statements and an indication of other forms of government assistance from which the municipality has directly benefited.

Unfulfilled conditions and other contingencies attaching to government assistance that has been recognised.

Greater Giyani Municipality

(Registration number LIM331)

Notes to the Audited Annual Financial Statements

Figures in Rand 2021 2020

16. Unspent conditional grants and receipts (continued)

See note for reconciliation of grants from National/Provincial Government.

These amounts are invested in a ring-fenced investment until utilised.

17. Deferred income

During the period under review the Municipality has sold stands/sites but the transfer of ownership of the stands to the customers has not been done with Deeds Registration office.

Deferred income	19 769 358	-
-----------------	------------	---

18. Rehabilitation of dumping-site

Reconciliation of provision for rehabilitation of dumping-site - 30 June 2021

	Opening Balance	Interest costs	Change in discount factor	Total
Rehabilitation of dumping-site	40 933 517	3 909 429	(5 837 928)	39 005 018

Reconciliation of provision for rehabilitation of dumping-site - 30 June 2020

	Opening Balance	Current service costs	Interest costs	Total
Reconciliation of provision of dumping-site	37 024 232	2 228 248	1 681 037	40 933 517
Non-current liabilities			35 127 919	37 024 088
Current liabilities			3 877 099	3 909 429
			39 005 018	40 933 517

The dumping site rehabilitation is created for the rehabilitation of the current operational site which is evaluated at each year-end to reflect the best estimate at reporting date. The site under consideration is at Giyani Section Section C landfill site.

The 2021 discounted value of the dumping site closure provision of R 39 005 018, compared to the provision of R 40 933 517 in the previous financial year. Composition of this change relate to changes in the CPI, discount rate and unit costs. The interest charge relating to the assessment amounts to R 3 909 429 and decrease in discount rate of R 5 837 928..

The dumping site closure provision is calculated as the net present value of future cash flows based on the expected remaining life of the dumping site and based on the size of the area that had been used for waste disposal as at 30 June 2021.

The valuation of land and buildings are performed every 5 years in terms of the Municipal Property Rates Act.

The municipality appointed a Municipal Valuer to compile the General Valuation Roll for implementation in the 2020-2025 financial years and to cause the Supplementary.

Valuation Roll in terms of section 78 of the Municipal Property Rates Act.

32. Traffic fines

Traffic fines issued	1 625 605	6 895 687
----------------------	-----------	-----------

The municipality did not have an appointed Law Enforcement Agency in the period under review as compared to the prior financial years.

The reduction of traffic fines figures in the current period under review is as a result of that.

The municipality has since advertised twice without success to appoint a Law Enforcement Agency for the period under review.

33. Interest from non-exchange receivables

Audited Annual Financial Statements for the year ended 30 June 2021

Notes to the Audited Annual Financial Statements

Figures in Rand	2021	2020
52. Accounting by principals and agents		
The municipality is a party to a principal-agent arrangement(s).		
Mopani District Municipality		
The Municipality and Mopani District Municipality entered into legislated arrangement under which the municipality serves as an agent and Mopani District as a Principal. Under this arrangement, Greater Giyani Municipality performs water and sewer functions on behalf of the Mopani District, all monies earned by the Greater Giyani Municipality from water and sewer services are disclosed as a liability and any monies paid by Greater Giyani Municipality to ensure smooth running of the water and sewer functions are disclosed as a receivable by Greater Giyani Municipality.	-	-
Agency fee @ 25%	1 797 113	1 112 284
Intermunicipal Account		
Mopani District Municipality	(23 369 210)	(20 953 844)
Department of Transport - Limpopo		
The Municipality has entered into an agreement with the Department of Transport under which the Department serves as a Principal and the Municipality as an agent. Under this arrangement, the Municipality performs licencing functions on behalf of the department of transport and earns a commission of the total revenue collected from this services. The balance is transferred to the department of transport and other stakeholders. The following is a summary of revenue as a result of the arrangements at year end.	-	-
Agency fee	-	-
Total collection on behalf of the principal	21 326 378	16 715 040
Total amount paid/transferred to the principal	(16 416 398)	(12 500 665)
	4 909 980	4 214 375

Details of the arrangement(s) are as follows:

The municipality has been appointed to distribute water to local residences as distribution agent by the district municipality for which it is then entitled to a commission/agency fee for service rendered. The municipality accounts for revenue, expenditures and receivables relating to water transactions into loan account and it is disclosed under the same section of the annual financial statements. Refer to disclosure note for other receivables for full details note 10 and note 19 for further reconciliation. The municipality is entitled to 25%.

The municipality is also a party to an agreement between the municipality and the department of roads and transport to collect revenue licensing and permits. The municipality is entitled to 20% of the revenue collected.

54. Risk management

Liquidity risk

The municipality's risk to liquidity is a result of the funds available to cover future commitments. The municipality manages liquidity risk through an ongoing review of future commitments and credit facilities.

Cash flow forecasts are prepared and adequate utilised borrowing facilities are monitored.

The table below analyses the municipality's financial liabilities and net-settled derivative financial liabilities into relevant maturity groupings based on the remaining period at the statement of financial position to the contractual maturity date. The amounts disclosed in the table are the contractual undiscounted cash flows. Balances due within 12 months equal their carrying balances as the impact of discounting is not significant.

At 30 June 2021	Less than 1 year
Payables from exchange transactions	102 455 111
At 31 June 2020	Less than 1 year
Payables from exchange transactions	102 002 087

Audited Annual Financial Statements for the year ended 30 June 2021

Notes to the Audited Annual Financial Statements

Figures in Rand 2021 2020

54. Risk management (continued)

Credit risk

Credit risk consists mainly of cash deposits, cash equivalents, derivative financial instruments and trade debtors. The municipality only deposits cash with major banks with high quality credit standing and limits exposure to any one counter-party.

Trade receivables comprise a widespread customer base. Management evaluated credit risk relating to customers on an ongoing basis. If customers are independently rated, these ratings are used. Otherwise, if there is no independent rating, risk control assesses the credit quality of the customer, taking into account its financial position, past experience and other factors. Individual risk limits are set based on internal or external ratings in accordance with limits set by the board. The utilisation of credit limits is regularly monitored. Sales to retail customers are settled in cash or using major credit cards. Credit guarantee insurance is purchased when deemed appropriate.

Financial assets exposed to credit risk at year end were as follows:

Financial instrument	2021	2020
Cash and cash equivalent	179 411 408	91 521 068
Receivables from exchange transactions	30 560 859	25 491 530
Receivables from non- exchange transactions	81 421 463	63 967 744
Other receivables from exchange transactions	25 001 738	19 179 566
VAT Receivable	16 131 014	9 741 521

Market risk

Interest rate risk

As the municipality has no significant interest-bearing assets, the municipality's income and operating cash flows are substantially independent of changes in market interest rates.

Notes to the Audited Annual Financial Statements

Figures in Rand

2021

2020

61. Going concern

We draw attention to the fact that at 30 June 2021, the municipality had an accumulated surplus of 1 184 364 275 and that the municipality's total assets exceed its liabilities by 1 184 364 275.

The audited annual financial statements have been prepared on the basis of accounting policies applicable to a going concern. This basis presumes that funds will be available to finance future operations and that the realisation of assets and settlement of liabilities, contingent obligations and commitments will occur in the ordinary course of business.

62. Events after reporting date

Eternity Star Investment 231 Contractual Dispute on the 16th July 2021, Exchanging pleadings, R2 037 027.70.

AUDITOR-GENERAL'S REPORT

SEE ATTACHED ANNEXURE D

Report of the auditor-general to Limpopo Provincial Legislation and the council on Greater Giyani Municipality

Report on the audit of the financial statements

Qualified opinion

1. I have audited the financial statements of the Greater Giyani municipality set out on pages ... to ..., which comprise the statement of financial position as at 30 June 2021, the statement of financial performance, statement of changes in net assets and cash flow statement and statement of comparison of budget and actual amounts for the year then ended, as well as notes to the financial statements, including a summary of significant accounting policies.
2. In my opinion, the financial statements present fairly, in all material respects, the financial position of the Greater Giyani Municipality as at 30 June 2021, and its financial performance and cash flows for the year then ended in accordance Standards of Recognised Accounting Practice (Standards of GRAP), the requirements of the Municipal Finance Management Act of South Africa, 2003 (Act No. 56 of 2003) (MFMA) and Division of Revenue Act of South Africa, 2020 (Act No. 4 of 2020) (DoRA).

Basis for qualified opinion

Other receivables from exchange transactions

3. I was unable to obtain sufficient appropriate audit evidence that management appropriately accounted for housing rental receivables, due to non-submission of information in support of these receivables. I was unable to confirm housing rental receivables by alternative means. Consequently, I was unable to determine whether any adjustments relating to other receivables from exchange transactions stated at R25 001 738 in note 13 to the financial statements was necessary.

General expenses

4. Included in general expenses is an amount of R16 253 018 for free basic electricity. The municipality did not have adequate internal controls to validate if indigents qualify for the free basic electricity subsidy. I was unable to obtain sufficient appropriate audit evidence to substantiate free basic electricity as disclosed in note 46 to the financial statements. Consequently, I was unable to determine whether any adjustment were required to the financial statements.

Context for the opinion

5. I conducted my audit in accordance with the International Standards on Auditing (ISAs). My responsibilities under those standards are further described in the auditor-general's responsibilities for the audit of the financial statements section of my report.

6. I am independent of the municipality in accordance with the International Ethics Standards Board for Accountants' *International code of ethics for professional accountants (including International Independence Standards)* (IESBA code) as well as other ethical requirements that are relevant to my audit in South Africa. I have fulfilled my other ethical responsibilities in accordance with these requirements and the IESBA code.
7. I believe that the audit evidence I have obtained is sufficient and appropriate to provide a basis for my qualified opinion.

Emphasis of matters

8. I draw attention to the matters below. My opinion is not modified in respect of these matters.

Significant uncertainty

9. With reference to note 50 to the financial statements, the municipality is the defendant in multiple lawsuits. The ultimate outcome of the matters could not be determined and no provision for any liability that may result was made in the financial statements.

Material impairments

10. As disclosed in note 41 to the financial statements, an impairment of consumer debtors of R45 382 706 was incurred as a result of debt which is doubtful for recovery due to inadequate collecting systems.

Restatement of corresponding figures

11. As disclosed in note 53 to the financial statements, the corresponding figures for 30 June 2020 were restated as a result of errors in the financial statements of the municipality at, and for the year ended 30 June 2021.

Other matters

12. I draw attention to the matters below. My opinion is not modified in respect of these matters.

Unaudited disclosure note

13. In terms of section 125(2)(e) of the MFMA, the municipality is required to disclose particulars of non-compliance with the MFMA in the financial statements. This disclosure requirement did not form part of the audit of the financial statements and, accordingly, I do not express an opinion on it.

Unaudited supplementary schedules

14. In terms of section 125(2)(e) of the MFMA, the municipality is required to disclose particulars of non-compliance with the MFMA in the financial statements. This disclosure requirement did not form part of the audit of the financial statements and, accordingly, I do not express an opinion on it.

Responsibilities of the accounting officer for the financial statements

15. The accounting officer is responsible for the preparation and fair presentation of the financial statements in accordance with the Standards of GRAP and the requirements of the MFMA and DoRA, and for such internal control as the accounting officer determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.
16. In preparing the financial statements, the accounting officer is responsible for assessing the municipality's ability to continue as a going concern, disclosing, as applicable, matters relating to going concern and using the going concern basis of accounting unless the appropriate governance structure either intends to liquidate the municipality or to cease operations, or has no realistic alternative but to do so.

Auditor-general's responsibilities for the audit of the financial statements

17. My objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes my opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with the ISAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.
18. A further description of my responsibilities for the audit of the financial statements is included in the annexure to this auditor's report.

Report on the audit of the annual performance report

Introduction and scope

19. In accordance with the Public Audit Act, 2004 (Act No. 25 of 2004) (PAA) and the general notice issued in terms thereof, I have a responsibility to report on the usefulness and reliability of the reported performance information against predetermined objectives for selected development priorities presented in the annual performance report. I performed procedures to identify material findings but not to gather evidence to express assurance.
20. My procedures address the usefulness and reliability of the reported performance information, which must be based on the municipality's approved performance planning documents. I have not evaluated the completeness and appropriateness of the performance indicators included in the planning documents. My procedures do not examine whether the actions taken by the municipality enabled service delivery. My procedures do not extend to any disclosures or assertions relating to the extent of achievements in the current year or planned performance strategies and information in respect of future periods that may be included as part of the reported performance information. Accordingly, my findings do not extend to these matters.
21. I evaluated the usefulness and reliability of the reported performance information in accordance with the criteria developed from the performance management and reporting

framework, as defined in the general notice, for the following selected development priorities presented in the municipality's annual performance report for the year ended 30 June 2021:

Development priority	Pages in the annual performance report
KPA 3 – Basic services and infrastructure	x – x

22. I performed procedures to determine whether the reported performance information was properly presented and whether performance was consistent with the approved performance planning documents. I performed further procedures to determine whether the indicators and related targets were measurable and relevant, and assessed the reliability of the reported performance information to determine whether it was valid, accurate and complete.
23. The material findings on the usefulness and reliability of the performance information of the selected development priorities are as follows

KPA 3: Basic services and infrastructure development

Various indicators

24. The achievement of indicators and targets listed below was reported in the annual report. However, some supporting evidence provided materially differed from the reported achievement, while in other instances I was unable to obtain sufficient appropriate audit evidence. This was due to lack of accurate and complete records. I was unable to further confirm the reported achievement by alternative means. Consequently, I was unable to determine whether any further adjustments were required to the reported achievement.

Indicator description	Reported achievement
To connect 335 units at Jim Nghalalume Village by 30 June 2021	Target achieved (335 units at Jim Nghalaume connected)
To connect 230 units at Noblehoek Village by 30 June 2021	Target achieved (230 units at Noblehoek village connected)

Other matters

25. I draw attention to the matters below.

Achievement of planned targets

26. Refer to the annual performance report on pages 15 to 17; 32 to 46 for information on the achievement of planned targets for the year. This information should be considered in the context of the material findings on the usefulness and reliability of the reported performance information in paragraph 23 to 24 of this report.

Adjustment of material misstatements

27. I identified material misstatements in the annual performance report submitted for auditing. These material misstatements were on the reported performance information of basic service delivery and infrastructure development. As management subsequently corrected only some

of the misstatements, I raised material findings on the usefulness and reliability of the reported performance information. Those that were not corrected are reported above.

Report on the audit of compliance with legislation

Introduction and scope

28. In accordance with the PAA and the general notice issued in terms thereof, I have a responsibility to report material findings on the municipality's compliance with specific matters in key legislation. I performed procedures to identify findings but not to gather evidence to express assurance.
29. The material findings on compliance with specific matters in key legislation are as follows:

Annual financial statements, performance and annual report

30. The annual financial statements submitted for audit were not prepared in all material respects in accordance with the requirements of section 122 of the MFMA.
31. Material misstatements of disclosure items identified by the auditors in the submitted financial statements were subsequently corrected and/ or the supporting records were provided subsequently, but the uncorrected material misstatements and/ or supporting records that could not be provided resulted in the financial statements receiving a qualified audit opinion.

Procurement and contract management

32. Some of the quotations were accepted from bidders who did not submit a declaration on whether they are employed by the state or connected to any person employed by the state, as required by supply chain management (SCM) regulation 13(c). Similar non-compliance was also reported in the prior year.

Expenditure management

33. Reasonable steps were not taken to prevent irregular expenditure amounting to R8 945 632 as disclosed in note 57 to the annual financial statements, as required by section 62(1)(d) of the MFMA. The majority of the irregular expenditure was caused by the non-compliance with SCM regulations.
34. Reasonable steps were not taken to prevent unauthorised expenditure amounting to R51 282 044, as disclosed in note 58 to the annual financial statements, in contravention of section 62(1)(d) of the MFMA. The majority of the unauthorised expenditure was caused by the municipality incurring expenditure that is in excess of the approved budget.

Strategic planning and performance management

35. The performance management system and related controls were not maintained due to internal control deficiencies identified, as required by the municipal planning and performance management regulation 7(1).

Other information

36. The accounting officer is responsible for the other information. The other information comprises the information included in the annual report, which includes the audit committee's report. The other information does not include the financial statements, the auditor's report and those selected development priorities presented in the annual performance report that have been specifically reported in this auditor's report.
37. My opinion on the financial statements and findings on the reported performance information and compliance with legislation do not cover the other information and I do not express an audit opinion or any form of assurance conclusion on it.
38. In connection with my audit, my responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements and the selected development priorities presented in the annual performance report, or my knowledge obtained in the audit, or otherwise appears to be materially misstated.
39. We did not receive the other information prior to the date of this auditor's report. After we receive and read this information, and if we conclude that there is a material misstatement, We are required to communicate the matter to those charged with governance and request that the other information be corrected. If the other information is not corrected, we may have to retract this auditor's report and re-issue an amended report as appropriate. However, if it is corrected this will not be necessary.

Internal control deficiencies

40. I considered internal control relevant to my audit of the financial statements, reported performance information and compliance with applicable legislation; however, my objective was not to express any form of assurance on it. The matters reported below are limited to the significant internal control deficiencies that resulted in the basis for the qualified opinion, the findings on the annual performance report and the findings on compliance with legislation included in this report.
41. The municipality did not have a proper record management system to maintain information that supported the reported performance in the annual performance report. This included information that related to the collection, collation, verification, storing and reporting of actual performance information, as a result, some of the reported performance information were not adequately supported, resulting in findings on performance information.
42. The financial statements contained misstatements. This is mainly due to insufficient reviews performed on the annual financial statements.
43. Non-compliance with legislation could have been prevented had compliance been properly reviewed and monitored. The municipality did not take reasonable steps to prevent unauthorised and irregular expenditure.

Material irregularities

44. In accordance with the PAA and the material irregularity regulations, I have a responsibility to report on material irregularities identified during the audit.

Material irregularities in progress

45. I identified material irregularities during the audit and notified the accounting officer, as required by material irregularity regulation 3(2). By the date of this auditor's report, the responses of the accounting officer were not yet due for some material irregularities and for the remainder, I had not yet completed the process of evaluating the responses from the accounting officer. These material irregularities will be included in the next year's auditor's report.

AUDITOR - GENERAL

Polokwane

28 February 2022

AUDITOR - GENERAL
SOUTH AFRICA

Auditing to build public confidence

Annexure – Auditor-general’s responsibility for the audit

1. As part of an audit in accordance with the ISAs, I exercise professional judgement and maintain professional scepticism throughout my audit of the financial statements and the procedures performed on reported performance information for selected development priorities and on the municipality’s compliance with respect to the selected subject matters.

Financial statements

2. In addition to my responsibility for the audit of the financial statements as described in this auditor’s report, I also:
 - identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error; design and perform audit procedures responsive to those risks; and obtain audit evidence that is sufficient and appropriate to provide a basis for my opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations or the override of internal control
 - obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the municipality’s internal control
 - evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the accounting officer
 - Conclude on the appropriateness of the accounting officer’s use of the going concern basis of accounting in the preparation of the financial statements. I also conclude, based on the audit evidence obtained, whether a material uncertainty exists relating to events or conditions that may cast significant doubt on the ability of the Greater Giyani Municipality to continue as a going concern. If I conclude that a material uncertainty exists, I am required to draw attention in my auditor’s report to the related disclosures in the financial statements about the material uncertainty or, if such disclosures are inadequate, to modify my opinion on the financial statements. My conclusions are based on the information available to me at the date of this auditor’s report. However, future events or conditions may cause a municipality to cease operating as a going concern
 - evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and determine whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation

Communication with those charged with governance

3. I communicate with the accounting officer regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that I identify during my audit.
4. I also provide the accounting officer with a statement that I have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and

other matters that may reasonably be thought to bear on my independence and, where applicable, actions taken to eliminate threats or safeguards applied.
