1. PREAMBLE

The Municipality has observed with concern the rate at which staff members are exiting the Municipality. Such a phenomenon has a potential to frustrate efforts towards the achievements of the Municipality's objectives as outlined in the Strategic Plan of the Municipality.

The municipality needs to ensure that the above situation is addressed. For example, it has been observed that certain specific occupational categories are highly characterized by resignations of staff due to a variety of reasons such as lower salaries, career advancement, Management practices, general working conditions, etc.

In addition, notwithstanding the fact that the municipality does assist its employees to achieve some tertiary qualifications, and there are those employees who pursue those qualifications at their own expense, it has also been observed that no follow-up is made by the municipality to ensure that the employees are correctly placed and effectively utilised after the completion of their studies.
