Training needs must be identified with due regard to cost effectiveness and listed in columns.

The suggested mode of delivery refers to the chosen methodology that is deemed most relevant to ensure transfer of skills. Mode of delivery consists of, amongst others, self-study, internal or external training, provision, coaching and / or mentoring and exchange programmes.

Training must be conducted either in line with a recognised qualification from a tertiary institution or unit standards registered on the National Qualifications Framework (South African Qualifications Authority), which could enable the trainee to obtain recognition towards a qualification for training undertaken. It is important to determine within the municipality whether unit standards have been developed with regard to a specific outcome (and registered with the South African Qualifications Authority). Unit standards usually have measurable assessment criteria to determine achieved competency.
