The suggested mode of delivery refers to the chosen methodology that is deemed most relevant to ensure transfer of skills. Mode of delivery consists of, amongst others, self-study, internal or external training, provision; coaching and / or mentoring and exchange programmes.

Training must be conducted either in line with a recognised qualification from a tertiary institution or unit standards registered on the National Qualifications Framework (South African Qualifications Authority), which could enable the trainee to obtain recognition towards a qualification for training undertaken. It is important to determine within the municipality whether unit standards have been developed with regard to a specific outcome (and registered with the South African Qualifications Authority). Unit standards usually have measurable assessment criteria to determine achieved competency.
