# CHAPTER THREE

# DETAILED FINANCIAL PERFORMANCE FOR THE PERIOD ENDED 31 DECEMBER 2015

#### **EXECUTIVE SUMMARY**

This report is a summary of the main budget issues arising from the monitoring process. It compares the progress of the budget to the projections contained in the Service Delivery and Budget Implementation Plan (SDBIP). The municipality has adopted the budget for the 2015/16 financial year during the month of May 2015. It is a legislative requirement that the budget be approved before the start of the financial year. The budget was implemented from the 01 July 2015.

This mid-year report is a critical stage in the in-yearly reporting cycle. As part of the review, in terms of Section 72(3), the Accounting Officer needs to make recommendations as to whether the SDBIP and the annual budget (both capital and operating) need to be adjusted.

The mid-year report was an extremely challenging, with considerable potential impacts on core service delivery cost and revenue components which influenced the outcomes of Budget adjustment. Another challenge is lower revenue collection due to non-payment by Government, farmers, residents and business. To produce a sustainable, affordable budget necessitated reductions to certain budgetary provisions

Section 54 (f) of the MFMA requires the Mayor to consider and submit the mid-year report to Council by 30 January.

## Reasons for major variances between planned and actual revenue collected:

• The lower collection percentage is due to non-payment by our debtors and especially residential households.

## Reasons for major variances between planned and actual spending:

• The lower spending percentage is mainly on capital project due to late appointment of contractor.
